## **Kingsoft Launches Kingsoft Internet Security - Netbook Edition**

### **Full Protection For Mini Notebook & Notebook Users**

(September 9, 2009 – Hong Kong) **Kingsoft Corporation Limited** (“Kingsoft” or the “Company”; SEHK stock code: 03888), China’s leading entertainment and applications software developer, distributor and service provider, based on market share, today announced the launch of Kingsoft Internet Security - Netbook Edition. With a volume of 7M, the software occupies 15M computer memory only. As the first anti-virus software in China specially designed for mini notebook and notebook, Kingsoft Internet Security - Netbook Edition successfully resolves the problem of slow virus killing encountered by mini notebook and notebook users resulted from simple technical setting.

**Ge Ke, Senior Vice President of Kingsoft**, said: “As a computer security software producer, Kingsoft always understands users’ needs in order to provide better products. Since mini notebook is not equipped with external disk drive, Kingsoft Internet Security - Netbook Edition adopts Universal Serial Bus (USB) port. Kingsoft Internet Security – Netbook Edition has opened a flagship store on Taobao Web (<http://shop58463367.taobao.com/>) and will co-operate with some notebook producers for joint promotion. ”

According to a survey conducted by Pchome.net in July 2009, nearly 80% of mini notebook and notebook users had been attacked by virus, and over 30% of mini notebook users have never installed any anti-virus software. It is believed that notebook security products will have great prospects in the future.
