www.iciba.com partners with ChinaHR.com Initiates a brand new vertical recruiting model

(April 23, 2008 – Hong Kong) Kingsoft Corporation Limited (“Kingsoft” or the “Company”; SEHK stock code: 3888), China’s leading entertainment and applications software developer, distributor and service provider, based on market share, today announced that its website I Love Power Word (“www.iciba.com”)(愛詞霸網) has entered into a cooperation agreement with ChinaHR.com.

I Love Power Word is the top online English learning community in China, while ChinaHR.com is one of the earliest and most professional recruitment websites in China. The cooperation will see ChinaHR.com in every column and channel of www.iciba.com, and users will benefit from ChinaHR.com’s implementation of the “advanced search for target user” service model, which is a new page in executive search. The cooperation is extraordinarily significant as it is the first between a recruitment website and an education website.

ChinaHR.com’s modification and application of the vertical recruiting model for campus recruitment in the Internet is a development trend in today’s recruitment website. The simple search service model adopted previously has been found to be not efficient enough; whereas the “advanced search for target user” model guarantees better usage experience.

Mr Li Wanqiang, General Manager of www.iciba.com said, “www.iciba.com , is a key component for the Kingsoft PowerWord series to extend its service scope to online education. The cooperation with ChinaHR.com will see us offering better quality of service to users. The vertical recruiting model undoubtedly is the best job-seeking tool for the existing premier users of www.iciba.com. Leveraging on this cooperation and the popularity of ChinaHR.com among job seekers and HR practitioners, we believe the traffic of www.iciba.com can be enhanced significantly”.

www.iciba.com provides an all-round environment for foreign language learning and is dedicated to becoming a comprehensive community for foreign language learners. It provides a platform for opinion exchanges between Chinese and foreigners as well as discussions of English-related questions. It has the highest traffic and popularity among its peers. Students and workers from 18-35 years old with college or university education are the website’s main users.

About Kingsoft

Since the commercial launch of its first office applications software called WPS 1.0 in 1989, Kingsoft Corporation Limited has now become a leading entertainment and applications software developer, distributor and service provider in China, based on market share. The Company leverages its comprehensive software development platform to offer a wide range of innovative entertainment and applications software.

Kingsoft has several well-known products such as WPS Office, Kingsoft PowerWord, Kingsoft Internet Security, and online games such as the JX Series and The First Myth. In addition, the Company sells various products such as Kingsoft Internet Security and Kingsoft PowerWord to retail consumers, corporate organizations and government agencies in China using online and offline distribution channels.

With its headquarters in Beijing, Kingsoft has multiple research and development centers based in Zhuhai, Beijing, Chengdu and Dalian. The Company's vision is to create world-class software products that run on every computer. Its strategy is to enhance its position as a leading entertainment and applications software developer, operator and distributor in China (based on market share), and to expand its presence in certain overseas markets.

About ChinaHR.com

ChinaHR.com, launched in 1997, is China's first recruitment website, and is one of the most professional. To job seekers and corporate hirers, ChinaHR.com's premium brand and services are synonymous with quality and effectiveness. In 2005, the world's leading career network, Monster.com™, invested 50 million U.S. dollars for a 40% stake in ChinaHR.com. That marked the beginning of ChinaHR's global integration.
