## **Kingsoft's MSN Protection Shield Has Over 3M Monthly Users Launches Version 2.1 To Offer Better Protection**

(January 26, 2010 – Hong Kong) **Kingsoft Corporation Limited** (“Kingsoft” or the “Company”; SEHK stock code: 03888), a leading entertainment and applications software developer, distributor and service provider in China (by market share), today announced that the Company has launched “MSN Protection Shield – Version 2.1”, an anti-virus software dedicated for MSN users. The newly launched version is equipped with our brand new “Cloud Security” engine. With enhanced capacity of virus killing and scanning, it provides MSN users with a better protection, 3D feel and faster speed during instant messaging.

With the growing popularity of Internet instant messaging, security of instant messaging software has become a concern. Kingsoft is an early mover in the market. In October 2008, the Company reached a strategic cooperation agreement with Microsoft MSN to jointly launch “MSN Protection Shield”. The software has been well received by the market. Active users and monthly users were more than 6.59 million and 3 million respectively as of the end of January 2010 while daily active users were as many as 1.23 million.

“MSN Protection Shield – Version 2.1” is equipped with “Cloud Security” engine, a new device newly developed by Kingsoft. This helps users commence a holistic virus scan and a specific scan on file transmission. Around 200,000 types of suspicious document, fraudulent websites, auto-shield, malicious link and etc will be detected.

Kingsoft believes the demand of security software for instant messaging will continue to surge. Leveraging our advanced technology and strategic alliance with MSN, Kingsoft is well positioned to capture the immense opportunities ahead.

## **About Kingsoft Corporation Limited**

Following the commercial launch of its first office applications software WPS 1.0 in 1989, Kingsoft Corporation Limited has now become a leading entertainment and applications software developer, distributor and service provider in China, based on market share. The Company leverages its comprehensive software development platform to offer a wide range of innovative entertainment and applications software.

Kingsoft has several well-known products such as WPS Office, Kingsoft PowerWord, Kingsoft Internet Security, and online games such as the JX Series and The First Myth. In addition, the Company sells various products such as Kingsoft Internet Security and Kingsoft PowerWord to retail consumers, corporate organizations and government agencies in China using online and offline distribution channels.

With its headquarters in Beijing, Kingsoft has multiple research and development centers based in Zhuhai, Beijing, Chengdu, Dalian and Shenzhen. The Company's vision is to create world-class software products that run on every computer. The Company's strategy is to enhance its position as a leading entertainment and application software developer, operator and distributor in China and to expand its presence in certain overseas markets.
