#### ***Move Further towards Internet Platform to Boost User Base***

(March 10, 2009 – Hong Kong) Kingsoft Corporation Limited (“Kingsoft” or the “Company”; SEHK stock code: 3888), China’s leading entertainment and applications software developer, distributor and service provider based on market share, announces today that Kingsoft has collaborated again with Google, the world’s largest search engine operator. WPS Office, Kingsoft’s office software, is recommended by Google to its users and is available for users to download for free at Google Pack.

Subsequent to the joint launch of Google-Kingsoft PowerWord in May last year, this is Kingsoft’s second collaboration with Google. Mr. Kau Pak Kwan, Chairman and Chief Executive Officer at Kingsoft, said, “It is our pleasure to cooperate with Google again with access to its internet platform. It is an important step of transforming our products to web-based which would help boosts user base.”

WPS Office has its unique features. From operations, word processing, or to the habitual of usage, WPS Office is highly compatible with Microsoft Office which means users can grasp the use of the software quickly. In addition, WPS Office is widely used and its file size is relatively small. These are the main reasons why WPS Office becomes Google Pack Software. Since then, other official departments in other provinces have chosen WPS Office. As of 2006, the software has been widely used by 57 ministries and commissions as well as government offices in 28 provinces and over 200 cities. In addition, the product is adopted by The People’s Bank of China, Agricultural Bank of China, China Minsheng Bank, Tencent, Inc., Anbang Insurance, Tianan Insurance and etc. Among those users, the purchasing order of Agricultural Bank of China in 2006 was over RMB10 million.
