CHAIRMAN'S STATEMENT

BUSINESS REVIEW AND OUTLOOK

In 2025, we remained committed to technology empowerment and focused on enhancing our core capabilities. Kingsoft Office Group adhered to its core strategy of “AI, Collaboration, and Internationalisation”, deepened its presence in AI office sector, and developed future-oriented intelligent office products tailored to the full-scenario office needs of both individual and institutional users. For the online games business, we further deepened our layout in classic Wuxia IP while actively expanded into diversified genres and global markets.

In 2025, the Group recorded revenue of RMB9,682.9 million, representing a year-on-year decrease of 6%. The revenue from office software and services business reached RMB5,928.7 million, a year-on-year increase of 16%, maintaining steady growth. Revenue from the online games and others business amounted to RMB3,754.1 million, a year-on-year decrease of 28%, primarily reflecting the high base last year and the declined revenue from existing games. After release in early 2026, Goose Goose Duck has received positive market reception and surpassed 30 million cumulative new users. This demonstrated our potential in expanding into new game genres and injected fresh growth momentum into the online games business.

Kingsoft Office Group continued to implement its core strategies. We advanced in parallel both the “Office AI reconstruction and upgrade” and “AI Office native exploration”. On one hand, we drove a comprehensive intelligent upgrade across our existing WPS component suite to reshape the full-scenario office experience. On the other hand, we explored an agent-native office paradigm. WPS Lingxi, an office AI agent, evolved into an “All-in-One AI Office Partner”. WPS 365 underwent a comprehensive AI-driven upgrade, and established a multi-dimensional framework that spans technical architecture, collaboration systems, intelligent search, and digital employee ecosystems, comprehensively empowering enterprises in their digital and intelligent transformation while enhancing office collaboration and operational efficiency. Meanwhile, international expansion progressed steadily. We advanced product upgrade of WPS International for individual and overseas data centers deployment. WPS 365 international version offered globally integrated office capabilities.

For WPS individual business, the user base continued to expand steadily, with both domestic and international operations achieving quality growth. In domestic market, the number of WPS cloud documents surpassed 290 billion, reflecting sustained user engagement. The multi-platform product tactics yielded notable results. In overseas markets, the number of accumulated paying users grew substantially, with particularly strong growth among large-screen users.

For WPS 365 business, guided by the core principles of integration, intelligence, and internationalisation, we continued to upgrade products and services and launched industry-specific solutions. We further consolidated our advantages among central and state-owned enterprises, accelerated expansion into private enterprises, foreign-invested enterprises, and local state-owned enterprises, and advanced channel ecosystem development to further enhance our market presence.

For WPS software business, we actively participated in the bids for domestic office software of governments and enterprises, and continued to maintain a leading share in both flow-layout and fixed-layout document software market. We continued to advance the implementation of government digitalisation projects, support the development of digital platforms in multiple regions, and effectively empower the intelligent upgrading of government office operations.

In the fourth quarter, the flagship game JX3 Online enhanced its costume design through technological upgrades, with its Chinese aesthetic style receiving widespread acclaim from players. The version optimisation and service upgrades completed in late 2025 were well received by players, and we will further increase investments in gameplay and narrative experience. The classic JX series of PC games and its inherited mobile games like World of Sword: Origin (劍俠世界：起源), maintained stable operations in both domestic and overseas markets through ongoing content iterations and version refreshes.

Social deduction game Goose Goose Duck officially launched in January 2026, exceeding 5 million new users on its first day and surpassing 30 million cumulative new users since launch, topping the iOS free games chart for most of the past two months. The game generated organic traffic and penetrated the broader social circle through user referrals. Currently in its early commercialization stage, Goose Goose Duck will continue optimizing its user retention and monetization systems.

CHAIRMAN'S STATEMENT (continued)

Two casual games from the Angry Birds (憤怒的小鳥) series have received license approval and are expected to launch in Chinese mainland in 2026, further enriching our casual games portfolio.

The cozy pastoral life simulation game Starsand Island (星砂島) began early access in February 2026. With its distinctive art style and gameplay, the game established a good reputation within the core gaming community. Moving forward, we will actively optimize the game based on player feedback, laying the groundwork for its official launch in the second half of the year.

Looking ahead, Kingsoft Office Group will deepen the application of AI Agent technology across office scenarios, enhance the core competitiveness of WPS 365 as an intelligent collaboration platform, and accelerate international expansion. The online games business will continue to focus on premium content development and global publishing, continuously enhancing the vitality of classic franchises while actively fostering the growth of new game genres to achieve sustainable development. We will continue to deepen technological innovation and commercial expansion, actively explore global market opportunities, and consistently deliver long-term value to our shareholders.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

Revenue

Revenue for the year of 2025 decreased 6% year-on-year to RMB9,682.9 million. Revenue from the office software and services, and online games and others represented 61% and 39% of the Group's total revenue for the year of 2025, respectively.

Revenue from the office software and services business for the year of 2025 increased 16% year-on-year to RMB5,928.7 million. Each of its key businesses achieved growth at varying rates. The steady increase in WPS individual business was primarily driven by the growing number of paying subscribers, attributable to broader office application scenarios and continuous enhancements to the intelligent office experience through WPS AI upgrades. The notable increase in WPS 365 business mainly reflected deepened integration of document, AI and collaboration capabilities, and accelerated customer expansion among private and local state-owned enterprises. The growth in WPS software business was largely driven by increased orders from government and enterprises.

Revenue from the online games and others business for the year of 2025 decreased 28% year-on-year to RMB3,754.1 million. The decrease primarily reflected the high base last year and lower revenue from certain existing games.

Cost of Revenue and Gross Profit

Cost of revenue for the year of 2025 increased 5% year-on-year to RMB1,819.0 million. The increase was primarily driven by greater server and bandwidth costs along with the business growth for office software and services business.

Gross profit for the year of 2025 decreased 8% year-on-year to RMB7,863.8 million. The Group's gross profit margin decreased by two percentage points to 81%.

R&D Costs

R&D costs for the year of 2025 increased 16% year-on-year to RMB3,534.0 million. The increase was mainly attributable to higher headcount and AI-related spending to support our strategic focus on long-term development in AI and collaboration.

Selling and Distribution Expenses

Selling and distribution expenses for the year of 2025 increased 33% year-on-year to RMB1,790.9 million. The increase was primarily attributable to higher marketing expenditure for new game launches and increased personnel-related expenses for Kingsoft Office Group.

Administrative Expenses

Administrative expenses for the year of 2025 increased 13% year-on-year to RMB714.2 million. The increase was mainly due to higher personnel-related expenses and increased depreciation arising from the completion and operation of the Wuhan Campus.

Share-based Compensation Costs

Share-based compensation costs for the year of 2025 increased 7% year-on-year to RMB296.5 million. The increase was mainly due to the grants of awarded shares to the selected employees of certain subsidiaries of the Company.

Operating Profit before Share-based Compensation Costs

Operating profit before share-based compensation costs for the year of 2025 decreased 47% year-on-year to RMB2,071.6 million.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

Other Gains/(Losses), net

Net other gains for the year of 2025 were RMB1,252.5 million, compared with losses of RMB153.8 million for the last year. The gains in this year were mainly due to the gain recognised on deemed disposal of Kingsoft Cloud following dilution from the issuance of new shares of it.

Share of Profits and Losses of Associates

Share of losses of associates for the year of 2025 were RMB450.6 million, compared with losses of RMB913.8 million for the last year.

Income Tax Expense

Income tax expense for the year of 2025 was RMB438.6 million, compared with RMB334.2 million for the prior year.

Profit Attributable to Owners of the Parent

For the reasons described above, profit attributable to owners of the parent was RMB2,004.4 million for the year of 2025, compared with profit of RMB1,551.6 million for the last year.

Profit Attributable to Owners of the Parent before Share-based Compensation Costs

Profit attributable to owners of the parent before share-based compensation costs, which is defined as profit attributable to owners of the parent excluding the effect of share-based compensation costs attributable to owners of the parent, is a measure supplementary to the consolidated financial statements presented in accordance with IFRS Accounting Standards.

We believe that the profit attributable to owners of the parent before share-based compensation costs will enhance investors to better understand the Group's overall operating performance. When assessing our operating performance, you should not consider this data in isolation or as a substitute for our profit or any other operating performance measure that is calculated in accordance with IFRS Accounting Standards. In addition, our profit attributable to owners of the parent before share-based compensation costs may not be comparable to similarly titled measures utilized by other companies.

Profit attributable to owners of the parent before share-based compensation costs was RMB2,188.2 million for the year of 2025, compared with profit of RMB1,719.6 million for the last year.

The net profit margin excluding the effect of share-based compensation costs was 23% and 17% for the year 2025 and 2024, respectively.

Liquidity and Financial Resource

The Group had a strong cash position towards the end of 2025. As at 31 December 2025, the Group had major financial resources in the forms of cash and bank deposits and restricted cash amounting to RMB22,587.2 million and RMB8.4 million, respectively, which totally represented 57% of the Group's total assets.

As at 31 December 2025, the Group's gearing ratio, representing total liabilities divided by total assets, was 17%, compared with 26% as at 31 December 2024.

Note:

The cash resources which the Group considered in cash management include cash and bank deposits, restricted cash and partial of financial assets at fair value through profit or loss. As at 31 December 2025, the aggregate amount of cash resources of the Group was RMB27,073.0 million.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

Foreign Currency Risk Management

As at 31 December 2025, RMB4,233.0 million of the Group's financial assets were held in deposits and financial assets at fair value through profit or loss denominated in non-RMB currencies. As there are no cost-effective hedges against the fluctuation of RMB, there is a risk that we may experience a loss as a result of any foreign currency exchange rate fluctuation in connection with our deposits and investments.

Net Cash Generated from Operating Activities

Net cash generated from the operating activities reflects the Group's profit for the year, as the case may be, as adjusted for non-cash items, such as finance income, gain on deemed disposal of associates, and share of profits and losses of associates, as well as the effect of changes in certain items of statement of financial position, such as contract liabilities, other payables and accruals.

Net cash generated from operating activities was RMB2,291.6 million and RMB4,587.2 million for the years ended 31 December 2025 and 31 December 2024, respectively.

Capital Expenditures

Capital expenditures represent cash payments for fixed assets and intangible assets. Cash used for capital expenditures was RMB342.1 million and RMB426.2 million for the years ended 31 December 2025 and 31 December 2024, respectively.

Material Investments

Following completion of the spin-off and separate listing on 8 May 2020, Kingsoft Cloud ceased to be a subsidiary and has been accounted as an associate. We hold the investment in Kingsoft Cloud to continue the implementation of the cloud strategy, one of our core strategies.

As at 31 December 2025, we held 1,492,621,584 shares of Kingsoft Cloud and the fair value of the equity interest of Kingsoft Cloud held by the Group was approximately RMB7,428.4 million (31 December 2024: RMB7,855.2 million), which was estimated based on the market price of Kingsoft Cloud, accounted for 19% (2024: 21%) of the Group's total assets. The carrying amount of the investment in Kingsoft Cloud was approximately RMB3,073.5 million (31 December 2024: RMB1,911.1 million), accounted for 8% (2024: 5%) of the Group's total assets.

Adjusted net loss from Kingsoft Cloud for the year of 2025 was RMB964.4 million (2024: RMB1,964.9 million).

Particulars of the Group's material investment are set out in note 21 to the financial statement. Except for investment in Kingsoft Cloud, there was no other individual investment with a carrying value of 5% or more of the Group's total assets as at 31 December 2025.

Future Plans for Material Investments or Capital Assets

As at 31 December 2025, we did not have any plans for material investments or capital assets.

Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures

During the year of 2025, we did not have any material acquisitions or disposals of subsidiaries, associates and joint ventures.

CORPORATE GOVERNANCE REPORT

OVERVIEW OF CORPORATE GOVERNANCE PRACTICES

The Group is committed to maintaining high standards of corporate governance to safeguard the interests of shareholders and to enhance corporate value and accountability. The Directors, having reviewed the corporate governance practices of the Company, confirm that the Company has complied with all the applicable code provisions as set out in the Corporate Governance Code (the “Code”) contained in Appendix C1 to the Listing Rules, except for the code provision D.1.2 of the Code.

The code provision D.1.2 of the Code requires management to provide all members of the board with monthly updates on the issuer’s business. The management of the Company currently reports to the Board quarterly on the Group’s performance, position and prospects. The Board believes that with the executive Director overseeing the daily operation of the Group and the effective communication between the executive Director, the management and the non-executive Directors (including the independent non-executive Directors) on the Group’s affairs, the current practice is sufficient enough for the members of the Board to discharge their duties. The Board will continue to review this practice and shall make necessary changes when appropriate and report to the shareholders of the Company accordingly.

The following is a summary of work performed by the Board in determining the policy for the corporate governance of the Company during the year ended 31 December 2025:

- (1) Developed and reviewed the Company’s policies and practices on corporate governance;
- (2) Reviewed and monitored the training and continuous professional development of Directors and senior management;
- (3) Reviewed and monitored the Company’s policies and practices on compliance with legal and regulatory requirements;
- (4) Developed, reviewed and monitored the code of conduct and compliance manual applicable to employees and Directors; and
- (5) Reviewed the Company’s compliance with the Code and disclosure in the corporate governance report.

The Company will continue to review and enhance its corporate governance practices to ensure compliance with the Code.

BUSINESS MODEL AND STRATEGY

The Group always endeavors to enhance its enterprise value, ensure the Company’s long-term and stable development and benefit its shareholders and other stakeholders. The Group emphasizes on long term business growth instead of short term reward by focusing on innovation and R&D to continue improving products and services. The discussion and analysis of the Group’s performance for the year ended 31 December 2025 are set out under the section of Management Discussion and Analysis of this annual report.

The Company has formulated an anti-corruption and whistle-blowing policy to regulate conduct and ensure compliance with anti-corruption policies and regulations. Employees are encouraged to report corruption, bribery, fraud and unethical behavior. The Company will also include publicity on anti-corruption and whistle-blowing policies in daily employee training.

CORPORATE CULTURE

The Group has adhered to the corporate spirit of “aiming high with feet on the ground” and integrated the core values of “Aspiration”, “Integrity” and “Responsibility” into our corporate development. Guided by the philosophy “technology-based enterprise”, we stick to our core strategy and will persist in intensifying our research and development efforts, promoting innovation as the driving force, and continuously enhancing our technological capabilities and product competitiveness. To fulfil our corporate social responsibilities, we stick to upholding integrity to spark dreams, and empower society with technology for a better future.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix C3 to the Listing Rules (the "**Model Code**").

Specific enquiry has been made of all the Directors and each of the Directors has confirmed that they have complied with the required standards set out in the Model Code during the year ended 31 December 2025 and up to the date of this annual report. The designated senior management of the Company also has adopted the Model Code.

Details of security interests in the Company held by the Directors are set out in the paragraph headed "Directors' and Chief Executive's Interests in Securities" under the section of the Directors' Report of this annual report.

The Company has also established written guidelines on no less exacting terms than the Model Code for securities transactions by employees who are likely to be in possession of unpublished inside information of the Company (the "**Guidelines**").

No incident of non-compliance of the Guidelines by the employees of the Group was noted by the Company during the year ended 31 December 2025.

THE BOARD

Responsibilities of the Board

The Board is the core function of the Company's corporate governance structure. The principal responsibilities of the Board are to set an overall framework of corporate governance within which the management conducts business and to monitor the Group's operations. The Company's overall framework of corporate governance contains many internal guidelines, internal control policies and procedures that have been formed over the years. The Board has delegated the authority and responsibility for the Group's daily management and operation to senior management of the Group which is under the supervision of the CEO who reports to the Board.

The Board has formulated a clear written policy that stipulates the circumstances under which the management should report and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Group. The Board regularly reviews our corporate governance practices and updates them as and when appropriate.

The Board oversees specific areas affecting the interests of all shareholders including the execution of resolutions, annual budget, formulation of major decisions for operations, financial proposals and policies, the Company's management system, recommendation/declaration of dividend or other distributions, notifiable and connected transactions under the Listing Rules, recommendation on appointment or reappointment of auditor and other significant operational and financial matters.

The Board is responsible for the preparation of financial statements, so that such financial statements meet the requirements of laws and regulations and applicable accounting standards, and truly and fairly reflect the financial position, the operating results and cash flows of the Group for each reporting period. The Directors also ensure the timely publication of the Group's financial statements. In preparing the financial statements for the year ended 31 December 2025, the Directors adopted appropriate accounting policies and made fair and reasonable judgments and estimates, and the Board was not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue on a going concern basis. The external auditor's responsibilities to shareholders are set out in the Independent Auditor's Report of this annual report.

CORPORATE GOVERNANCE REPORT (continued)

Composition of the Board

As at the date of this annual report, the Board comprises seven Directors with one executive Director, three non-executive Directors and three independent non-executive Directors. The independent non-executive Directors constitute one-third of the Board members which complies with rule 3.10A of the Listing Rules and are possessing appropriate professional qualifications or accounting or related financial management expertise. All of the independent non-executive Directors act in a diligent manner to uphold the interests of the Company and its shareholders by maintaining the independence of their opinions and providing professional advice on the long-term development of the Company.

The Company has received, from each of the independent non-executive Directors, a written annual confirmation of his/her independence to the Company. The Company considers all independent non-executive Directors to be independent in accordance with the independence guidelines as set out in the Listing Rules. The Company will ensure that there are channels (in addition to independent non-executive Directors) where independent views are available, including but not limited to availability of access by Directors of the Company to external independent professional advice to assist their performance of duties. The Board has reviewed the implementation and effectiveness of the above mechanisms during the year 2025.

A list of Directors, their respective biographies and their relationship with others, if any, are set out in the section headed Directors and Senior Management in this annual report. Save for the disclosure in this annual report, there is no other relationship among the Board members to the best knowledge of the Board as at the date of this annual report.

During the year ended 31 December 2025, the Board comprises the following Directors:

Executive Director:

Mr. Tao ZOU

Non-executive Directors:

Mr. Jun LEI

Mr. Pak Kwan KAU

Mr. Leiwen YAO

Independent Non-executive Directors:

Mr. Shun Tak WONG

Mr. Zuotao CHEN

Ms. Wenjie WU

The list of Directors (by category) is also disclosed in all corporate communications issued by the Company pursuant to the Listing Rules from time to time.

Supply of and Access to Information and Resources

All the Directors have direct access to the legal counsels. Written procedures are also in place for Directors to seek, at the Company's expenses, independent professional advice in performing their duties. The Company has arranged appropriate insurance to cover the liabilities of the Directors arising from corporate activities. The insurance coverage is reviewed on an annual basis. The management provides the Board and its committees with adequate, complete and reliable information in a timely manner to enable them to make informed decisions.

CORPORATE GOVERNANCE REPORT (continued)

Continuing Development

Every newly appointed Director of the Company has received a comprehensive, formal and tailored induction on the first occasion of his/her appointment, and subsequently such briefing and professional development are also available as necessary, to ensure that he/she has a proper understanding of the operations and business of the Company and that he/she is fully aware of his/her responsibilities under statute and common law, the Listing Rules, applicable legal requirements and other regulatory requirements and the business and governance policies of the Company.

Pursuant to the applicable code provisions as set out in the Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant. During the year ended 31 December 2025, all Directors, namely, the executive Director Mr. Tao ZOU; the non-executive Directors Mr. Jun LEI, Mr. Pak Kwan KAU, and Mr. Leiwen YAO; and the independent non-executive Directors Mr. Shun Tak WONG, Mr. Zuotao CHEN, and Ms. Wenjie WU have participated in continuous professional development by attending training courses or external seminars to develop and refresh their knowledge and skills in relation to their contribution to the Board.

During the year ended 31 December 2025, the company secretary of the Company (the “**Company Secretary**”) has taken no less than 15 hours of relevant professional training in compliance with rule 3.29 of the Listing Rules.

Board Meetings

The Board meets at least four times a year at approximately quarterly intervals to review the financial performance of the Group, internal re-organisation plans, the overall group strategy and operations with active participation of the majority of Directors. Certain regular Board meetings held during the year ended 31 December 2025 were convened with at least 14 days’ notice, which is in compliance with code provision C.5.3 of the Code. The Company adopted a flexible approach in convening Board meetings and ensured that sufficient time and adequate information were given to Directors in advance.

A regular meeting does not include the practice of obtaining the consent of the Board through the circulation of written resolutions. For all other Board meetings, our Directors are given reasonable notices. Senior managements are invited to attend Board meetings from time to time to advise on business developments, financial and accounting matters, statutory and regulatory compliance, corporate governance and other major aspects of the Company.

The Company Secretary is responsible for drafting meeting agenda and obtaining comments from all Directors and approval of meeting agenda by the Chairman, preparing and circulating meeting materials that contain analysis and background information to all meeting attendees at least 3 days in advance, drafting minutes of meetings of the Board and Board committees and obtaining comments from all Directors and approval of the meetings minutes by the Chairman. The approved meetings minutes are open for inspection by the Directors with reasonable advance notice.

The Articles of Association contains provisions requiring Directors to abstain from voting and not to be counted in the quorum at meetings for approving transactions in which such Directors or any of their associates have a material interest. If a substantial shareholder or a Director has a conflict of interest in a matter to be considered by the Board which the Board has determined to be material, the matter should be dealt with a physical board meeting rather than a written resolution. Independent non-executive Directors who, and whose close associates, have no material interest in the transaction should be present and vote at such Board meeting.

Chairman and CEO

The Company fully supports the division of responsibility between the Chairman of the Board and the CEO to ensure a balance of power and authority. Their respective responsibilities are clearly defined and set out in writing. The Chairman provides leadership and is responsible for the effective functioning of the Board in accordance with good corporate governance practice. The CEO focuses on implementing objectives, policies and strategies approved and delegated by the Board. During the year ended 31 December 2025 and as at the date of this annual report, the posts of Chairman and CEO of the Company were held by Mr. Jun LEI and Mr. Tao ZOU, respectively, and there is a clear division of power and responsibility between them.

Appointment and Re-election

All the Directors including the non-executive Directors have either service contracts or formal letters of appointments setting out the major terms and conditions of their appointment. Their terms are fixed for three years.

The Company may from time to time elect any person to be a Director either to fill a casual vacancy or as an additional Director. Any Director so appointed shall hold office only until the next general meeting of the Company and shall then be eligible for re-election at the meeting but shall not be taken into account in determining the Directors or the number of Directors who are to retire by rotation at such meeting. According to the Articles of Association, at each annual general meeting one-third of the Directors for the time being, or, if their number is not 3 or a multiple of 3, then the number nearest to but not less than one-third, shall retire from office by rotation, provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every 3 years. A retiring Director shall be eligible for re-election at the general meeting of the Company, at which a Director who retires may fill the vacated office.

The basic salary and director's fees depend on individual's experience, responsibilities and relevant market rate. The bonus depends on actual performance of the Company's targets and individual performance. Details for the stock option scheme and the share award scheme can be found under the subtitle of "Share Scheme", "Share Option Schemes" and "Share Award Scheme" in the Directors' Report. The awarded shares are offered to qualified employees to reward them for their high level of performance and foster loyalty with the Group. The information regarding the remuneration of the Directors during the year ended 31 December 2025 is set out in note 10 to the financial statements. When a meeting is convened to discuss certain Directors' remuneration, the Directors in discussion cannot determine his/her own remuneration.

Summary of principal work performed

The following is a summary of work performed by the Remuneration Committee during the year ended 31 December 2025:

- Reviewed and approved the service contracts and remuneration packages (including year-end bonuses, awarded shares and share options) of our executive Director and senior management, and assessed performance of our executive Director;
- Reviewed and recommended director's fee for non-executive Directors and independent non-executive Directors to the Board;
- Reviewed and recommended performance bonus scheme of the Company to the Board.

Under 2024 Share Scheme, for employee participants, the vesting date may be less than 12 months from the grant date (including on the grant date) in certain specified circumstances. The Remuneration Committee considers that by having the flexibility of having a shorter vesting period for the employee participants in accordance with the circumstances set out in paragraphs (a) to (f) under section headed "Vesting Period" of Appendix III to the circular of the Company dated 30 April 2024, the Group will be in a better position to attract and retain employee participants to continue serving the Group whilst at the same time providing them with further incentive in achieving the goals of the Group, and thereby, to achieve the purpose of the 2024 Share Scheme. Hence, the Remuneration Committee is of the view that the shorter vesting period for the employee participants under the circumstances specified in paragraphs (a) to (f) under section headed "Vesting Period" of Appendix III to the circular of the Company dated 30 April 2024 is in line with the market practice and is appropriate and aligns with the purpose of the 2024 Share Scheme.

EXTERNAL AUDITOR AND AUDITOR'S REMUNERATION

Ernst & Young, Hong Kong, Certified Public Accountants, were engaged as the Company's external auditor for the year ended 31 December 2025. External auditor may provide certain non-audit services to the Group as long as these services do not involve any management or decision-making functions for and on behalf of the Group, performing of self-assessments or action as an advocacy role for the Group. Before any engagement with external auditor for non-audit services, external auditor must comply with the independence requirements under the Code of Ethics for Professional Accountants issued by Hong Kong Institute of Certified Public Accountants. The statement of the independent auditor of the Company about their reporting responsibilities on the financial statements is set out in the Independent Auditor's Report of this annual report. During the past three years, there was no change of the auditor of the Company.

CORPORATE GOVERNANCE REPORT (continued)

During the year ended 31 December 2025, the remunerations paid or payable to Ernst & Young regarding the audit and non-audit services (together with the comparative figures for 2024) are set out as follows:

	2025 RMB Million	2024 RMB Million
Audit services	6.20	6.20
Non-audit services*	2.51	2.45
Total	8.71	8.65

* Non-audit services included review services of the Group's interim financial statements (RMB2.1 million) and tax services (RMB0.41 million).

DIVIDEND POLICY

The Company has adopted a dividend policy. Subject to the Companies Act (as revised) of the Cayman Islands and the Articles of Association, the Company in general meeting may declare dividends in any currency but no dividends shall exceed the amount recommended by the Board.

The Board may from time to time pay to the shareholders of the Company such interim dividends subject to the Companies Act (as revised) of the Cayman Islands and the Articles of Association. The Board may also pay half-yearly or at other suitable intervals to be settled by it any dividend which may be payable at a fixed rate, or from time to time declare and pay special dividends subject to the Companies Act (as revised) of the Cayman Islands and the Articles of Association.

In proposing any dividend payment, the Board shall take into account the following criteria, including:

- the Group's actual and expected results of operations, cash flow and financial position;
- general business conditions and the Group's business strategies;
- distributable profit, retained earnings and/or distributable reserves of the Company and the members of the Group;
- the Group's expected working capital requirements and future expansion plans;
- the Group's indebtedness level and liquidity position;
- legal, regulatory and other contractual restrictions on the Group's declaration and payment of dividends; and
- other factors that the Board deems appropriate.

INTERNAL CONTROL AND RISK MANAGEMENT

Our internal control system and risk management are designed to provide reasonable assurance in safeguarding our shareholders' investment and assets, improving corporate governance and risk management, preventing and detecting frauds and irregularities, providing reliable financial information, and ensuring compliance with applicable laws and regulations. The Board acknowledges its responsibility to ensure the Company to maintain a solid, complete and effective internal control system and to monitor the effective implementation of such system. The Company has established an integrated framework of internal controls which is consistent with the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") framework.

CORPORATE GOVERNANCE REPORT (continued)

The Company's internal control framework covers the setting of objectives, budgets and targets; the establishment of regular reporting of financial information, in particular, the tracking of deviations between actual performances and budgets/targets; the delegation of authority; and the establishment of clear lines of accountability. Well defined policies and procedures that are properly documented and communicated to employees are essential to the internal control system. Over the past few years, within its internal control framework, the Company has formulated manuals, implemented systems and adopted rules in relation to internal control, which are available on the Company's intranet. The Company's employees receive training on its code of conduct on a regular basis. The Company's internal control system is designed to manage, rather than eliminate, the risk of failure to achieve our business objectives, and aims at providing a reasonable, as opposed to an absolute, assurance in this respect.

While the management is responsible for the design, implementation and maintenance of internal control system, the Board and the Audit Committee oversee the actions of the management and monitor the effectiveness of the established controls. To assist the Audit Committee in its oversight and monitoring activities, the Company has set up an independent internal audit team (the "IA") that reports to the Audit Committee directly. The IA provides independent assessment as to the existence and effectiveness of the Company's internal control system, conducts independent investigations regarding allegations of fraud and violations of our business code of conduct, and advises on managing and controlling risks. To enable the fulfillment of its mission, the IA has unrestricted access to all corporate operations, records, data files, computer programs, property and personnel. Under the COSO framework, the IA undertakes a periodical risk assessment of the Company's overall activities and prepares its audit plan focusing on areas of the Company's operations with the greatest perceived risks. In selecting auditing projects to perform each year, the IA uses information collected throughout the year from process owners, the risk assessment team, senior executives, external auditor and the board of directors. The Audit Committee reviews audit plan and receives at least quarterly updates on the progress. The IA also conducts subjective auditing projects in the operational areas which are material to the business or identified by the Audit Committee and/or senior management, results of which will be reported to the Audit Committee and the relevant senior management. The IA will follow up with the implementation of audit recommendations. Any major internal control weaknesses and findings will be firstly reported to the Audit Committee whenever necessary. In addition, the IA maintains regular communications with our external auditor so that both parties are aware of the significant factors that may affect their respective scopes of work.

The board secretary office reviews the continuing connected transactions periodically to ensure they are in accordance with the pricing policies or mechanisms under the framework agreements, including the pricing range, the process for estimating the selling prices for the goods or services, and the procedures for obtaining quotations or tenders, as appropriate. The Board considers the internal control procedures are adequate and effective to ensure the transactions are so conducted.

The Board has the responsibility to oversee the risks undertaken by the Group, and to actively consider, analyze and formulate strategies to control the risks the Group is exposed to, and determine the level of risk the Company wishes to and is able to take. The Board realizes that risk management is incorporated as part of the Group's annual strategic planning process across all major functions of the Company rather than being a separate and standalone process. Therefore, all business functions are required to identify, assess and evaluate material risks that may impact their strategy objectives, including the following aspects of the risk: business continuity, financial impact, reputational risk, safety and health, external regulations and social responsibility. Each business function monitors and reviews the risks and reports to the senior management team periodically. The senior management team monitors these risks and develops effective systems and mechanisms to mitigate the risks to an acceptable level as determined by the Board. At least annually, the senior management team coordinates the risk identification and assessment process and reports to the Board and whenever necessary on the identified risks and the actions taken to mitigate them.

The Board reviews the risk management and internal control systems annually. The Board believes that all the internal control and risk management policies and procedures have been properly designed and would enable the Company to strengthen the compliance of the overall monitoring system and thereby reduce its operational risk. Continuous monitoring and improvement of management procedures will be carried out to ensure effective internal control system to be in line with the growth of the Company's business. The Company has not suffered any material liability during the year under review resulting from the deficiencies in our internal control system.

CORPORATE GOVERNANCE REPORT (continued)

During the year ended 31 December 2025, the Board has reviewed the effectiveness of the system of internal control and risk management of the Group and considers the internal control and risk management systems effective and adequate. Such review also took into consideration the adequacy of resources, qualifications and experience of staff of the Company's accounting and financial reporting function, as well as their training programs and budget.

INSIDE INFORMATION

In accordance with the SFO, the Company has established a framework for handling and disclosure of inside information. The framework sets out the procedures and internal controls for publishing the inside information announcements. The Company has communicated with all relevant staff regarding the implementation of the framework and relevant trainings are also provided.

COMMUNICATION WITH SHAREHOLDERS

The Company considers that effective communication with shareholders is essential for enhancing investor relations and investors' understanding of the Company's business, performance and strategies. The Company also recognises the importance of timely and non-selective disclosure of information, which will enable shareholders and investors to make informed investment decisions.

To promote effective communication, the Company maintains the website at www.kingsoft.com where up-to-date information on the Company's business operations and developments, financial information, corporate governance practices and other information are available for public access. Latest information on the Group including annual and interim reports, announcements and press releases are updated on the Company's website in a timely fashion.

The Board endeavours to maintain an on-going dialogue with our shareholders, uses annual general meetings or other general meetings to communicate with our shareholders in particular and encourages them to participate in these meetings. All annual general meeting materials including but not limited to circular, notice and proxy form will be sent to shareholders in time which contain all adequate information according to the Listing Rules.

During the period under review, the Company reviewed the shareholders' communication policy, and was satisfied with the implementation and effectiveness of its shareholders' communication policy.

INVESTOR RELATIONS

Kingsoft establishes an investor relations team to promote open, ongoing and effective communications with shareholders, investors and equity analysts. We are committed to proactively providing the investment community with all necessary information in a timely manner so that participants in the investment community can make fair investment decisions.

During the year ended 31 December 2025, the Company's senior management presented its results in both physical and virtual conference meetings. Through various activities such as global analyst briefings, virtual press conferences, conference calls, and investor non-deal road shows, our senior management presented and answered the key issues about which investors were mainly concerned. In addition to regular one-on-one investor meetings, our senior management participated in a number of investor conferences held by major international investment banks in order to maintain active communications with global institutional investors. The investor relations section of the Company's website, www.kingsoft.com, provides information of the Company such as financial results, announcements, press releases and other latest information in a timely manner and is updated regularly.

Share Scheme

2024 Share Scheme

The 2024 Share Scheme was approved and adopted at the annual general meeting by the shareholders of the Company on 23 May 2024. The 2024 Share Scheme shall be valid and effective for the period (i) commencing on the adoption date (i.e., 23 May 2024), and (ii) ending on the earlier of the 10th anniversary of the adoption date or the date of early termination of the 2024 Share Scheme. The purpose of the 2024 Share Scheme is to provide incentives or rewards to eligible participants thereunder for their contribution to the Group and to enable the Group to recruit and retain high-calibre employees and attract human resources that are valuable to the Group. The eligible participants comprise the employee participants, the related entity participants and the service providers or, with the approval of the Board or the Scheme Administrator, any special-purpose vehicle (such as a trust or a private company) that is set up for the only purpose of holding the options or awards on behalf of any eligible participant or a group thereof.

Where any grant of options or awards to an eligible participant would result in the new Shares issued and to be issued in respect of all options and awards granted to such person (excluding any options and awards lapsed in accordance with the terms of the 2024 Share Scheme) in the 12-month period up to and including the date of such grant representing in aggregate over 1% of the Shares in issue (excluding any treasury shares), such grant must be separately approved by the Shareholders in general meeting with such eligible participant and his close associates (or, if the eligible participant is a connected person, associates) abstaining from voting.

Under the 2024 Share Scheme, the Board may at its absolute discretion determine, subject to the Listing Rules, the eligibility of the participants, the number of shares to be comprised in the options or awards, performance targets, the exercise period and vesting period of options or awards. The exercise period shall end not later than 10 years after the date of the grant of the option. The vesting period of options and/or awards granted to the eligible participants shall not be less than 12 months except, in case of the employee participants, for such circumstances as set out in paragraphs (a) to (f) under section headed "Vesting Period" of Appendix III to the circular of the Company dated 30 April 2024. The exercise price at which an option holder may subscribe for Shares upon the exercise of an option shall be determined by the Board in its absolute discretion, and shall be at least the highest of: (a) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the offer date, which must be a business day; (b) the average closing price of the Shares as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the offer date; and (c) the nominal value of the Shares. The Board may in its absolute discretion determine whether the award holder is required to pay any purchase price for the acquisition of the award shares and, if so required, the amount of the purchase price, after taking into account the practices of comparable companies and the effectiveness of the 2024 Share Scheme in attracting talents and motivating the award holder to contribute to the long term development of the Group. The offer of grant of share awards and options must be accepted within a period of 28 days from the date of offer, upon payment of a consideration of HK\$1.00 on acceptance of each grant of share awards and options.

The maximum number of new shares issuable under the 2024 Share Scheme and any other schemes of the Company (if any) in aggregate will be 133,916,711 shares, being 10% of the total number of shares in issue on 23 May 2024 and 9.69% of the total number of shares in issue as at the date of this annual report (excluding any treasury shares) (the "**Scheme Mandate Limit**"). For the avoidance of doubt, the total number of new shares which may be issued in respect of all options and awards to be granted under all share schemes of the Company which are funded by issue of new shares of the Company (including the 2024 Share Scheme) must not exceed 10% of the shares in issue (excluding any treasury shares) as at the date of approval by the shareholders of a share scheme or a refreshment of scheme mandate under a share scheme, whichever is the latest. Within the Scheme Mandate Limit, the total number of shares which may be issued in respect of all options and awards to be granted to service provider participants under the 2024 Share Scheme shall not exceed 13,391,671 shares, being 1% of the total number of shares in issue on 23 May 2024

DIRECTORS' REPORT (continued)

(the "Service Provider Sublimit"). It follows that, as of 31 December 2025, 133,916,711 shares and 13,391,671 shares were available for grant under the Scheme Mandate Limit and the Service Provider Sublimit, respectively. The number of shares that may be issued in respect of awards granted under the 2024 Share Scheme during the reporting period divided by the weighted average number of shares in issue (excluding treasury shares) for the reporting period was 0. Please refer to the circular of the Company dated 30 April 2024 and note 35 to the financial statements for details of the 2024 Share Scheme.

The changes in the outstanding share awards under the 2024 Share Scheme in 2025 are summarized as follows:

Share Award Scheme

Share Award Scheme

The Share Award Scheme was adopted by the Board on 31 March 2008. On 5 July 2021, the Board resolved to amend certain provisions of the Share Award Scheme to, among others, (i) allow the Company to allot and issue new Shares as the awarded Shares, and (ii) extend the termination date of the Share Award Scheme to 30 March 2027. For details of the amendments to the Share Award Scheme, please refer to the announcement of the Company dated 5 July 2021.

The purpose of the Share Award Scheme is to recognise the contributions by certain employees (including without limitation to employees who are also directors) of the Group and to give incentives thereto in order to retain them for the continual operation and development of the Group and to attract suitable personnel for further development of the Group.

Pursuant to the terms of the Share Award Scheme, the Board may, from time to time, at its absolute discretion and subject to such terms and conditions as it may think fit (including the basis of eligibility of each employee determined by the Board from time to time) select an employee for participation in the Share Award Scheme and determine the number of shares to be awarded. The vesting period of the awarded Shares granted under the Share Award Scheme is determined at the discretion of the Board and varied from one to five years. The Board shall not grant any award of shares which would result in the total number of shares which are the subject of awards granted by the Board under the Share Award Scheme (but not counting any which have lapsed or have been cancelled) representing in aggregate over 10% of the issued shares of the Company as at the date of such grant. No further awards may be granted under the Share Award Scheme since the adoption of the 2024 Share Scheme. For details, please refer to the circular of the Company dated 30 April 2024. The total number of shares available for issue under the Share Award Scheme, being 24,320 shares, represents 0.00% of the total number of shares in issue as at the date of this annual report (excluding treasury shares). The number of shares that may be issued in respect of awards granted under the Share Award Scheme during the reporting period divided by the weighted average number of shares in issue (excluding treasury shares) for the reporting period was 0.

No award of Shares shall be granted to any grantee which would result in the maximum number of awarded Shares which are the subject of the awards of Shares granted to such grantee (including any which have lapsed or have been forfeited) under the Share Award Scheme in the 12-month period up to and including the date of such grant representing in aggregate over 1% of the issued share capital of the Company as at the date of such grant. Such shares will be acquired at the cost of the Company and therefore the grantee is not required to pay any purchase price for such Shares. In addition, the grantee is not required to pay any amount for accepting the awarded Shares granted.

Directors' and Senior Management's Biographies

Biographical details of the Directors of the Company and the senior management of the Group are set out on pages 12 to 15 of this annual report.

Directors' Service Contracts

Each of the executive Directors has entered into a service agreement with the Company. Each agreement is for a period of three years and shall continue thereafter until being terminated by either party giving not less than three months' prior written notice.

The emoluments of the Directors of the Company are determined by the Remuneration Committee after considering the Company's operating results, market rate and individual performance. No Director is allowed to take part in deciding his own remuneration. Details of the remuneration policy for the Directors and senior management of the Group are set out in Corporate Governance Report under the heading of "Remuneration Committee".

None of the Directors who are proposed for re-election at the forthcoming AGM has a service contract with the Company or any of its subsidiaries which is not determinable within one year without payment of compensation, other than statutory compensation.

Interests of the Directors in Contracts

Save as disclosed in the section of "Related Party Transactions and Connected Transactions" in Directors' Report, no Directors had any direct or indirect material interests in any contracts of significance to the business of the Group to which the Company or any of its subsidiaries was a party at the end of the year or at any time during the year ended 31 December 2025.

Public Float

As at the date of this report, the Company has maintained the prescribed public float of at least 25% under the Listing Rules, based on the information that is publicly available to the Company and within the knowledge of the Directors.

Purchase, Sale or Redemption of the Company's Listed Securities

In May 2025, the Company repurchased 949,200 of its own ordinary shares on the Stock Exchange at a price range from HK\$33.2 to HK\$35.1. In June 2025, the Company repurchased 620,800 of its own ordinary shares on the Stock Exchange at a price range from HK\$31.65 to HK\$32.4. In July 2025, the Company repurchased 888,600 of its own ordinary shares on the Stock Exchange at a price range from HK\$33 to HK\$34.3. In November 2025, the Company repurchased 2,850,000 of its own ordinary shares on the Stock Exchange at a price range from HK\$27.26 to HK\$29.62. In December 2025, the Company repurchased 6,419,600 of its own ordinary shares on the Stock Exchange at a price range from HK\$27.74 to HK\$29.2. During the year ended 31 December 2025, the Company repurchased a total of 11,728,200 of its own ordinary shares on the Stock Exchange at a total cost of approximately HK\$344.65 million. The Company considered that it is in the best interest of the shareholders to return some surplus funds to them which will in turn enhance shareholders' value. The Company did not have any treasury share (as defined in the Listing Rules) during the year ended 31 December 2025.

Convertible Bonds

The Company completed the issue of the 2020 Convertible Bonds in the principal amount of HK\$3,100,000,000 on 29 April 2020. Unless previously redeemed, converted or purchased and cancelled, the Company will redeem each 2020 Convertible Bonds at 105.85% of its principal amount together with accrued and unpaid interest thereon on 29 April 2025. The net proceeds from the subscription of the 2020 Convertible Bonds, after deduction of commissions and other related expenses, were approximately HK\$3,033.94 million. The net proceeds of approximately HK\$3,033.94 million represents a net issue price of approximately HK\$35.0016 per conversion share based on the initial conversion price of HK\$35.7637 per conversion share.

The initial conversion price for each conversion share was HK\$35.7637, which represented (i) a premium of approximately 27.5% over the last closing price of HK\$28.05 per share as quoted on the Stock Exchange on 23 April 2020, being the trading day on which the subscription agreement was signed; (ii) a premium of approximately 30.2% over the average closing price of approximately HK\$27.46 per share as quoted on the Stock Exchange for the five consecutive trading days up to and including 23 April 2020; and (iii) a premium of approximately 36.6% over the average closing price of approximately HK\$26.19 per share as quoted on the Stock Exchange for the ten consecutive trading days up to and including 23 April 2020. The 2020 Convertible Bonds were offered and sold to no less than six independent placees (who were independent individual, corporate and/or institutional investors). The 2020 Convertible Bonds have been listed on the Stock Exchange since 4 May 2020. The interest is 0.625% per annum of the principal amount of the 2020 Convertible Bonds, payable semi-annually in arrear in equal instalments of HK\$3,125 per calculation amount (i.e. interest in respect of any 2020 Convertible Bond shall be calculated per HK\$1,000,000 in principal amount of the 2020 Convertible Bonds) on 29 April and 29 October in each year. The Company intended to use the net proceeds from the subscription primarily for general corporate purposes, for strategic investments and acquisitions, if appropriate, and to supplement working capital, which is in accordance with the proposed uses as disclosed in the announcement of the Company dated 24 April 2020. The Directors are of the view that the issue of the 2020 Convertible Bonds can provide the Company with additional funds at lower funding cost for the said purposes.

In accordance with the terms and conditions of the 2020 Convertible Bonds, the dividend payments made after the issuance of the 2020 Convertible Bonds resulted in adjustments to the conversion price of the 2020 Convertible Bonds and the conversion price of the 2020 Convertible Bonds was adjusted to HK\$34.77 per share after the latest adjustment became effective on 8 June 2024.

During the period from 11 April 2025 to 17 April 2025, the Company issued a total number of 65,401,193 shares to the bondholders from which it received conversion notices. Such convertible bonds, representing principal amount of approximately HK\$2,274 million in aggregate, had been converted at the prevailing adjusted conversion price of HK\$34.77 per share and cancelled in accordance with the terms and conditions of the 2020 Convertible Bonds.

DIRECTORS' REPORT (continued)

Pursuant to the terms and conditions of the 2020 Convertible Bonds, on 29 April 2025 (i.e., the maturity date of the 2020 Convertible Bonds), the Company has fully redeemed the outstanding 2020 Convertible Bonds at the principal amount of approximately HK\$826 million together with all accrued and unpaid interests and fees thereon. Accordingly, there are no outstanding 2020 Convertible Bonds in issue following the aforesaid redemption and the 2020 Convertible Bonds have been cancelled and delisted from the Stock Exchange as at 29 April 2025.

The actual use of the net proceeds raised from the issue of the 2020 Convertible Bonds as at 31 December 2025 and the expected timeline for use of unutilized proceeds is set out as follows:

PROPOSED USE OF PROCEEDS	AMOUNT UTILIZED DURING YEAR 2025 (HK\$ MILLION)	ACTUAL USE OF PROCEEDS AS AT 31 DECEMBER 2025 (HK\$ MILLION)	UNUTILIZED PROCEEDS (HK\$ MILLION)	EXPECTED TIMELINE FOR USE OF UNUTILIZED PROCEEDS
Strategic investments and acquisitions	731.05	1,104.87	1,295.12	By 2027
General corporate purposes	6.17	633.95	—	—

During the year ended 31 December 2025, the net proceeds raised from the issue of the 2020 Convertible Bonds were utilised according to the intentions previously disclosed in the announcement of the Company dated 24 April 2020, the annual reports and interim reports of the Company.

References are made to the announcements of the Company dated 24 April 2020 and 29 April 2020 for principal terms of the 2020 Convertible Bonds. For details of the adjustments to the conversion price of the 2020 Convertible Bonds, please refer to the announcements of the Company dated 26 May 2021 and 23 May 2024. For details of the partial conversion of the 2020 Convertible Bonds, please refer to the announcements of the Company dated 14 April 2025, 15 April 2025, 16 April 2025 and 17 April 2025. References are made to the announcement of the Company dated 29 April 2025 for fully redeemed the outstanding 2020 Convertible Bonds upon maturity.

Major Customers and Suppliers

For the year ended 31 December 2025, the 5 largest customers of the Group accounted for less than 30% of the total revenue. For the year ended 31 December 2025, the 5 largest suppliers of the Group accounted for 45% of the total purchases, while the largest supplier accounted for 21% of the total purchases.

The major customers of the Group are mainly mobile games distributors and operators of software products and services. The Group paid attention to strengthening and sustaining the relationship with its major customers as they are important to the business of the Group. However, the Group does not materially rely on such major customers to generate revenue. The Group's end customers vary for different categories of business of the Group, which include game users, purchasers of office software products and services as well as other internet services, and etc. The Group will continue to strengthen its customer service to provide superior quality service to the users, and strive to achieve the fastest response times and highest customer satisfaction levels in the industry. The major suppliers of the Group mainly provide channel distribution, game development and bandwidth services to the Group. The Group has established long-term relationships with the major suppliers of the Group to ensure the stable and sustainable supplies for the businesses of the Group.

None of the Directors or any of their close associates or any shareholders (which, to the best knowledge of the Directors, own more than 5% of the number of issued shares of the Company) had any beneficial interest in the Group's five largest customers and suppliers.

Environmental Policies and Performance

As a group providing internet services, the day-to-day business of the Group generally does not involve many environmental issues. However, the Group acknowledges the great importance of environment protection. To minimise the impact on the environment and natural resources generated from the operation of the Group, the Group has broadly implemented resource-recycling and energy-saving practices in its offices and branch premises, including its offices and premises in Beijing, Zhuhai, Wuhan, Chengdu and etc. Specifically, the Group (i) encouraged double-sided printing and multi-pages-per-sheet printing for office documents; (ii) encouraged its employees to collect waste paper and used batteries for recycling purpose; and (iii) encouraged its employees to turn off lights and computers before leaving the office.

Details of the Company's environmental policies and performances will be set out in a separate Environmental, Social and Governance Report.

Compliance with Relevant Laws and Regulations

The Group recognizes the importance of compliance with regulatory requirements. During the year ended 31 December 2025, the Group has complied, to the best of our knowledge, with Telecommunications Regulations, The Administrative Measures for Telecommunications Business Operating Licenses and other laws and regulations in relation to foreign investment, copy rights and etc., as well as the Listing Rules and other applicable laws and regulations. The Group has been allocating system and staff resources to ensure ongoing compliance with laws, regulations and rules. The Legal Department and Compliance Department of the Group are mainly responsible for monitoring the operation of the Group to be in compliance with relevant laws and regulations.

Permitted Indemnity Provision

As at 31 December 2025, all Directors of the Company were covered under the liability insurance purchased by the Company for its Directors.

Related Party Transactions and Connected Transactions

1. Connected Transaction

Subscription of New Shares of Kingsoft Cloud

On 16 April 2025, the Company and Kingsoft Cloud entered into a subscription agreement (the "**Subscription Agreement**"), pursuant to which the Company has conditionally agreed to subscribe for and Kingsoft Cloud has conditionally agreed to allot and issue subscription shares at the subscription price of HK\$5.83 for each subscription share (the "**Subscription**"). The aggregate consideration of the subscription shares is HK\$404,456,250.

As at the date of the Subscription Agreement, Kingsoft Cloud is held as to 12.25% by Xiaomi and Mr. Jun LEI holds a majority of voting power in Xiaomi, while other interests of Xiaomi are held by independent third parties. As Mr. Jun LEI is a Director of the Company, the Subscription constitutes a connected transaction of the Company under Rule 14A.28 of the Listing Rules.

As Mr. Jun LEI and Mr. Tao ZOU are Directors of the Company and directors of Kingsoft Cloud, both of them have abstained from voting on the relevant Board resolutions to approve the Subscription Agreement and the transactions contemplated thereunder. Save as mentioned above, none of the other Directors is regarded as having a material interest in, and therefore none of them is required to abstain from voting on, the relevant Board resolutions for approving the Subscription Agreement and the transactions contemplated thereunder.

For details of the above mentioned connected transaction, please refer to the announcement of the Company dated 17 April 2025.

DIRECTORS' REPORT (continued)

The Lease Agreement between the Company and Beijing Duokan

On 30 December 2025, the Company (on behalf of the lessees) entered into a lease agreement (the "**Lease Agreement**") with Beijing Duokan Technology Co., Ltd.* (北京多看科技有限公司) ("**Beijing Duokan**"), a consolidated affiliated entity of Xiaomi, pursuant to which, Beijing Duokan agreed to lease the properties to the lessees, for a term of six years commencing from 1 January 2026 to 31 December 2031. The properties include (i) the premises situated at Buildings C, D and E, Xiaomi Science and Technology Park, 33 West Erqi Central Road, Haidian District, Beijing (北京市海淀区西二旗中路33號院小米科技園C棟、D棟及E棟), with a total area of approximately 25,915.38 sq.m., including 25,483.74 sq.m. ground floor area and 431.64 sq.m. underground floor area; and (ii) 184 parking lots reserved by Beijing Duokan to the lessees.

Rent for the premises: The annual rent (including VAT) for the ground floor area for the three years from 1 January 2026 to 31 December 2028 is approximately RMB48.74 million (equivalent to approximately HK\$53.77 million), while the annual rent (including VAT) for the underground floor area for the three years from 1 January 2026 to 31 December 2028 is approximately RMB0.33 million (equivalent to approximately HK\$0.36 million). For every three years since 1 January 2026, the rental rate of these two areas will increase by approximately 5%. Thus, the annual rent (including VAT) for the ground floor area for the three years from 1 January 2029 to 31 December 2031 is approximately RMB51.16 million (equivalent to approximately HK\$56.44 million), while the annual rent (including VAT) for the underground floor area for the three years from 1 January 2029 to 31 December 2031 is approximately RMB0.34 million (equivalent to approximately HK\$0.38 million). Rent for 184 parking lots: The monthly rent is RMB400 (equivalent to approximately HK\$441.32) per parking lot. The total rent payable during the term under the Lease Agreement is approximately RMB307.01 million (equivalent to approximately HK\$338.72 million).

As at the date of the Lease Agreement, Beijing Duokan is a consolidated affiliated entity of Xiaomi. Xiaomi is an associate of Mr. Jun LEI, a Director and substantial shareholder of the Company. Mr. Jun LEI holds a majority of voting power in Xiaomi. As such, Xiaomi is a connected person of the Company and Beijing Duokan is also a connected person of the Company.

Pursuant to IFRS 16, the properties leased under the Lease Agreement will be recognised as right-of-use assets with the aggregate consideration of approximately RMB256.17 million (equivalent to approximately HK\$282.63 million), and the transaction contemplated under the Lease Agreement will be recognised as the acquisition of right-of use assets which will constitute a one-off connected transaction of the Company under Chapter 14A of the Listing Rules.

In view of his interest in Xiaomi, Mr. Jun LEI has abstained from voting on the Board resolution approving the Lease Agreement. Save as disclosed above, none of the Directors has a material interest in the transaction contemplated under the Lease Agreement and none of them has abstained from voting on the relevant Board resolution.

For details of the above mentioned connected transaction, please refer to the announcement of the Company dated 30 December 2025.

2. Structure Contracts

According to the Administrative Rules for Foreign Investments in Telecommunications Enterprises, which were issued on 11 December 2001 by the State Council and became effective on 1 January 2002, a foreign investor is currently prohibited from owning more than 50% of the equity interest in a Chinese entity that provides value-added telecommunications services. Internet content provision ("**ICP**") services are classified as value-added telecommunications businesses, and a commercial operator of such services must obtain an ICP license from the appropriate telecommunications authorities in order to carry on any commercial Internet content provision operations in China. In July 2006, the Ministry of Information and Industry of China issued a notice which prohibits ICP license holders from leasing, transferring or selling a telecommunications business operating license to any foreign investors in any form, or providing any resource, sites or facilities to any foreign investors for their illegal operation of telecommunications businesses in China. The notice also requires that ICP license holders and their shareholders directly own the domain names and trademarks used by such ICP license holders in their daily operations. Therefore, in order for us to be able to carry on our business in China, the Group entered into a series of structure contracts with Kingsoft Qijian, its shareholders Weiqin Qiu and Peili Lei, and Chengdu Digital Entertainment, which enable the Group to exercise control over Kingsoft Qijian, Beijing Digital Entertainment and Chengdu Digital Entertainment and to consolidate these companies' financial results in our results. Beijing Digital

Entertainment (which is wholly owned by Kingsoft Qijian) and Chengdu Digital Entertainment (which is owned as to 99.91% by Beijing Digital Entertainment and 0.09% by Weiqin Qiu) hold the requisite ICP licenses.

Pre-existing Structure Contracts during the 2025 financial year

To streamline the corporate structure of the Group, the Group has commenced an internal reorganization exercise. In 2007, the Group has (i) entered into structure contracts relating to Kingsoft Qijian; and (ii) entered into structure contracts relating to Chengdu Digital Entertainment. In 2012, the Group has entered into structure contracts relating to Zhuhai Seasun Shiyou and Chengdu Seasun Shiyou. In 2020, the Group has entered into structure contracts relating to Wuhan Jufang Technology. In 2022, the Group has entered into structure contracts relating to Shiyou Zhuhai.

The risks for operating business with contractual arrangements exist in the following aspects: (i) the PRC government may determine that the agreements which established the structure for operating the Group's business in the PRC do not comply with PRC government restrictions on foreign investment; (ii) the Group's structure contracts with relevant contractually-controlled entities and their shareholders may be less effective in providing operational control as compared with having direct ownership of those entities; and (iii) in the event of the imposition of statutory liens, bankruptcy or criminal proceedings against the shareholders of the relevant contractually-controlled entities, the Company may lose the ability to use a major portion of its assets. For details of such risks, please refer to the Company's prospectus. The Company has made and will continue to make efforts to keep abreast of the recent development of PRC laws and regulations on the contractual arrangement. In order to mitigate the risks, the Company will consult the PRC legal advisors of the Company from time to time and un-wind the contractual arrangements in due course where applicable.

The structure contracts in relation to the business operations of the Group subject to the reporting requirements under the Chapter 14A of the Listing Rules which were pre-existing during the 2025 financial year were as follows:

Structure Contracts relating to Kingsoft Qijian

- (i) A loan agreement dated 30 March 2007 between Weiqin Qiu, Peili Lei and Chengdu Interactive Entertainment which provided for an interest free loan by Chengdu Interactive Entertainment of RMB1,200,000 to Weiqin Qiu and of RMB300,000 to Peili Lei, entirely for the purpose of repaying the loan provided by Zhuhai Software. The loans have no definite maturity date and Chengdu Interactive Entertainment may request repayment at any time. Weiqin Qiu and Peili Lei shall repay the loans by transferring the equity interest they hold in Kingsoft Qijian to Chengdu Interactive Entertainment or any person or entity as it may direct.
- (ii) A shareholder voting agreement dated 30 March 2007 among Chengdu Interactive Entertainment, Weiqin Qiu, Peili Lei and Kingsoft Qijian, under which Weiqin Qiu and Peili Lei irrevocably entrust all of their shareholder rights in Kingsoft Qijian to Chengdu Interactive Entertainment, including but not limited to the voting rights and the right to nominate directors of Kingsoft Qijian.
- (iii) A call option agreement dated 30 March 2007 among Weiqin Qiu, Peili Lei, Kingsoft Qijian and Chengdu Interactive Entertainment, under which Chengdu Interactive Entertainment was granted an exclusive irrevocable option to purchase, or designate a third party to purchase, part or all of Weiqin Qiu's and Peili Lei's equity interest in Kingsoft Qijian at any time, at a nominal amount subject to applicable PRC laws.
- (iv) An equity pledge agreement dated 30 March 2007 among Weiqin Qiu, Peili Lei, Chengdu Interactive Entertainment and Kingsoft Qijian, pursuant to which Weiqin Qiu and Peili Lei pledged all of their equity interests in Kingsoft Qijian (and any increase in their capital contributions) in favor of Chengdu Interactive Entertainment as security for the performance of their respective obligations under the above loan agreement, the shareholder voting agreement and the call option agreement, the performance by Kingsoft Qijian of its obligations under the above shareholder voting agreement and the call option agreement, the performance by Chengdu Digital Entertainment of its obligations under the intellectual property license agreements (as described below in "Structure Contracts relating to Chengdu Digital Entertainment") and the performance by Beijing Digital Entertainment of its obligations under the intellectual property license agreements (as described below).

DIRECTORS' REPORT (continued)

- (v) Zhuhai Software (as the licensor) and Beijing Digital Entertainment (as the licensee) entered into a framework intellectual property license agreement on 15 June 2007 for a term of 10 years from 1 January 2007 which will be automatically renewed for one year at the end of the term or any renewed term, unless the licensor notifies otherwise. Zhuhai Software agreed to enter into agreements to license certain intellectual property rights to Beijing Digital Entertainment on a case-by-case basis.

Structure Contracts relating to Chengdu Digital Entertainment

- (i) A loan agreement dated 30 March 2007 between Weiqin Qiu and Chengdu Interactive Entertainment which provided for an interest free loan of RMB100,000 by Chengdu Interactive Entertainment to Weiqin Qiu entirely for the purpose of capital funding of Chengdu Digital Entertainment. The loan has no definite maturity date and Chengdu Interactive Entertainment may request repayment at any time. Weiqin Qiu shall repay the loan by transferring the equity interest she holds in Chengdu Digital Entertainment to Chengdu Interactive Entertainment or any person or entity nominated by Chengdu Interactive Entertainment.
- (ii) A shareholder voting agreement dated 30 March 2007 among Chengdu Interactive Entertainment, Weiqin Qiu and Chengdu Digital Entertainment, under which Weiqin Qiu irrevocably entrusts all of her shareholder rights in Chengdu Digital Entertainment to Chengdu Interactive Entertainment, including but not limited to the voting rights and the right to nominate directors of Chengdu Digital Entertainment.
- (iii) A call option agreement dated 30 March 2007 among Weiqin Qiu, Chengdu Digital Entertainment and Chengdu Interactive Entertainment, under which Chengdu Interactive Entertainment was granted an exclusive irrevocable option to purchase, or designate a third party to purchase, part or all of Weiqin Qiu's equity interest in Chengdu Digital Entertainment at any time, at a nominal amount subject to applicable PRC laws.
- (iv) An equity pledge agreement dated 30 March 2007 among Weiqin Qiu, Chengdu Interactive Entertainment, Chengdu Digital Entertainment and Beijing Digital Entertainment, pursuant to which Weiqin Qiu pledged all of her equity interests in Chengdu Digital Entertainment (and any increase in her capital contribution) in favor of Chengdu Interactive Entertainment as security for the performance of her obligations under the above loan agreement, shareholder voting agreement and call option agreement as well as the performance by Chengdu Digital Entertainment of its obligations under the above shareholder voting agreement, the call option agreement, and the intellectual property license agreements (as described below).
- (v) Chengdu Interactive Entertainment (as the licensor) and Chengdu Digital Entertainment (as the licensee) entered into a framework intellectual property license agreement on 15 June 2007 for a term of 10 years from 1 January 2007 which will be automatically renewed for one year at the end of the term or any renewed term, unless the licensor notifies otherwise. Chengdu Interactive Entertainment agreed to enter into agreements to license certain intellectual property rights to Chengdu Digital Entertainment.

As Weiqin Qiu is the sister of Pak Kwan Kau, and Peili Lei is the aunt of Jun Lei, with Pak Kwan Kau and Jun Lei being our executive Directors when the above said structure contracts were signed and now our non-executive Directors, Weiqin Qiu and Peili Lei are associates of Pak Kwan Kau and Jun Lei, and therefore, are our connected persons. Accordingly, certain transactions under the structure contracts technically constituted connected transactions. The Company applied to the Stock Exchange for and was granted a specific waiver from strict compliance with the applicable disclosure and shareholders' approval requirements of Chapter 14A of the Listing Rules in relation to the transactions contemplated under the structure contracts for so long as the shares of the Company are listed on the Stock Exchange.

The independent non-executive Directors have reviewed the structure contracts relating to Kingsoft Qijian, Beijing Digital Entertainment and Chengdu Digital Entertainment and have confirmed that:

- these structure contracts remain unchanged and are consistent with their disclosure in the prospectus of the Company dated 24 September 2007;
- no dividends or other distributions have been made by Kingsoft Qijian, Beijing Digital Entertainment, or Chengdu Digital Entertainment to the holders of their equity interests which are not otherwise subsequently assigned or transferred to the Group for the year ended 31 December 2025; and
- the terms of such structure contracts are fair and reasonable so far as the Group is concerned and in the interests of the shareholders and the Company as a whole.

Structure Contracts Relating to Zhuhai Seasun Shiyou and Chengdu Seasun Shiyou

- (i) Tao Zou, Weiqin Qiu and Chengdu Westhouse Interactive Entertainment Co., Ltd. ("**Chengdu Westhouse**") entered into a loan agreement on 3 September 2012, pursuant to which Chengdu Westhouse provided interest free loans of RMB10,000,000 to Tao Zou and Weiqin Qiu for repaying the liability incurred by Tao Zou and Weiqin Qiu for the acquisition of the entire registered capital in Zhuhai Seasun Shiyou. The loans have no fixed maturity date, and Chengdu Westhouse may demand repayment at any time. Subject to the PRC Laws, Tao Zou and Weiqin Qiu shall repay the loans by transferring their equity interests in Zhuhai Seasun Shiyou to Chengdu Westhouse or its designated third party.
- (ii) Tao Zou, Weiqin Qiu, Chengdu Westhouse and Zhuhai Seasun Shiyou entered into a shareholder voting entrustment agreement on 3 September 2012, pursuant to which Tao Zou and Weiqin Qiu irrevocably entrusted their shareholder rights (including but not limited to the voting rights and the right to nominate executive directors of Zhuhai Seasun Shiyou) in Zhuhai Seasun Shiyou to such persons designated by Chengdu Westhouse.
- (iii) Tao Zou, Weiqin Qiu, Chengdu Westhouse and Zhuhai Seasun Shiyou entered into an exclusive option agreement on 3 September 2012, pursuant to which Chengdu Westhouse was granted an irrevocable exclusive option to acquire, or designate a third party to acquire, all or part of the equity interest owned by Tao Zou and Weiqin Qiu in Zhuhai Seasun Shiyou at any time at an exercise price equal to the corresponding portion of liability of Chengdu Westhouse borne by Tao Zou and Weiqin Qiu under the loan agreement. However, if the lowest conversion price permitted by the PRC Laws is higher than the amounts of those liabilities, the exercise price shall be the lowest price permitted by the PRC Laws. Despite the above, Tao Zou and Weiqin Qiu shall jointly waive the obligations of Chengdu Westhouse for paying the shortfall in the case that the lowest price permitted by the PRC Laws is higher than the portion of liability, subject to the laws and regulations of the PRC. When the option is exercised by Chengdu Westhouse, Chengdu Westhouse is entitled to the rights to pay the exercise price by directly waiving the corresponding portion of liability of Chengdu Westhouse borne by Tao Zou and Weiqin Qiu. The ratio of the waived liability of Tao Zou and Weiqin Qiu to their total liabilities shall be the same as that of the transferred equity interest held by Tao Zou and Weiqin Qiu to their total equity interest in Zhuhai Seasun Shiyou.
- (iv) Chengdu Westhouse and Chengdu Seasun Shiyou entered into an exclusive technology development, support and consultation agreement on 3 September 2012, pursuant to which Chengdu Westhouse agreed, on the terms, conditions and pricing as required by the agreement, to provide to Chengdu Seasun Shiyou exclusively and Chengdu Seasun Shiyou agreed to accept the technology development, support and consultation services exclusively provided by Chengdu Westhouse for an indefinite term unless otherwise terminated by Chengdu Westhouse in accordance with the terms of the agreement.
- (v) Tao Zou, Weiqin Qiu, Zhuhai Seasun Shiyou, Chengdu Seasun Shiyou and Chengdu Westhouse entered into a business operation agreement on 3 September 2012, pursuant to which, Tao Zou, Weiqin Qiu, Zhuhai Seasun Shiyou and Chengdu Seasun Shiyou will make relevant undertakings and guarantee to Chengdu Westhouse for the daily operation of Chengdu Seasun Shiyou for a term of 10 years, unless otherwise terminated by Chengdu Westhouse, to ensure that Chengdu Seasun Shiyou would perform the obligations under the above exclusive technology development, support and consultation agreement entered into on the same date. On 3 September 2022, Tao Zou,

DIRECTORS' REPORT (continued)

Weiqin Qiu, Zhuhai Season Shiyou, Chengdu Season Shiyou and Chengdu Westhouse entered into a supplemental agreement to the business operation agreement, pursuant to which, the business operation agreement will be automatically renewed for the period of one year unless Chengdu Westhouse notice other parties 30 days prior to the expiration of the business agreement.

- (vi) Tao Zou, Weiqin Qiu, Zhuhai Season Shiyou and Chengdu Westhouse entered into an equity pledge agreement on 3 September 2012, pursuant to which, Tao Zou and Weiqin Qiu agreed to pledge all equity interests they respectively held in Zhuhai Season Shiyou and any increase in capital contributions in favor of Chengdu Westhouse, and granted the priority of pledge compensation while Zhuhai Season Shiyou agreed to utilize these equity pledge arrangement as a security for the performance of their obligations under the above loan agreement, shareholder voting entrustment agreement, exclusive option agreement, exclusive technology development, support and consultation agreement and business operation agreement dated 3 September 2012 and the settlement in respect of the relevant guaranteed debts. Guaranteed debts represents all direct, indirect, resulting loss and expected interest loss arising from any default by Tao Zou, Weiqin Qiu, Zhuhai Season Shiyou and Chengdu Season Shiyou, and all expenses generated by Chengdu Westhouse for enforcing mandatory performance of all agreed obligations by Tao Zou, Weiqin Qiu, Zhuhai Season Shiyou under the above loan agreement, shareholder voting entrustment agreement, exclusive option agreement, exclusive technology development, support and consultation agreement and business operation agreement all dated 3 September 2012.

The arrangement relating to Zhuhai Season Shiyou and Chengdu Season Shiyou was substantially similar to the arrangement under the existing structure contracts relating to Kingsoft Qijian and Chengdu Digital Entertainment. Subject to the relevant disclosures in this annual report of the Company, cloning of structure contracts similar to those relating to Kingsoft Qijian and Chengdu Digital Entertainment will not be subject to the strict requirements of announcement and shareholders' approval under Chapter 14A of the Listing Rules.

The independent non-executive Directors have reviewed the structure contracts relating to Zhuhai Season Shiyou and Chengdu Season Shiyou, and have confirmed that:

- these structure contracts are similar and consistent with those as disclosed in the prospectus of the Company dated 24 September 2007;
- no dividends or any other distributions have been made by Zhuhai Season Shiyou and Chengdu Season Shiyou to the holders of their equity interests which are not otherwise subsequently assigned or transferred to the Group for the year ended 31 December 2025; and
- the terms of such structure contracts are fair and reasonable so far as the Group is concerned and in the interests of the shareholders and the Company as a whole.

Structure Contracts Relating to Wuhan Jufang Technology

- (i) Wei Liu, Weiqin Qiu and Kingsoft Shiyou (Wuhan) Network Technology Co., Ltd. ("**Kingsoft Shiyou (Wuhan) Network Technology**", formerly known as Season Technology (Wuhan) Co., Ltd.) entered into a loan agreement on 16 July 2020, pursuant to which Kingsoft Shiyou (Wuhan) Network Technology provided interest free loans of RMB800,000 and RMB200,000 to Wei Liu and Weiqin Qiu respectively for subscription and fully payment of the entire registered capital of Wuhan Kingsoft Shiyou Jufang Technology Group Co., Ltd. ("**Wuhan Jufang Technology**"). The loans have no fixed maturity date, and Kingsoft Shiyou (Wuhan) Network Technology may demand repayment at any time. Subject to the PRC Laws, Wei Liu and Weiqin Qiu shall repay the loans by transferring their equity interests in Wuhan Jufang Technology to Kingsoft Shiyou (Wuhan) Network Technology or its designated third party. Moreover, the ratio of the transferred equity interests in Wuhan Jufang Technology to the equity interests in Wuhan Jufang Technology held by these borrowers on the date of notice of repayment shall be the same as that of the requested repayment to the loans of these borrowers on the date of signing the loan agreement.

- (ii) Weiqin Qiu, Wei Liu, Kingsoft Shiyou (Wuhan) Network Technology and Wuhan Jufang Technology entered into a shareholder voting entrustment agreement on 16 July 2020, pursuant to which Wei Liu and Weiqin Qiu irrevocably entrusted their shareholder rights (including but not limited to the voting rights and the right to designate and nominate the senior management (such as directors and managers) of Wuhan Jufang Technology) in Wuhan Jufang Technology to Kingsoft Shiyou (Wuhan) Network Technology or persons designated by Kingsoft Shiyou (Wuhan) Network Technology.
- (iii) Wei Liu, Weiqin Qiu, Kingsoft Shiyou (Wuhan) Network Technology and Wuhan Jufang Technology entered into an exclusive option agreement on 16 July 2020, pursuant to which Kingsoft Shiyou (Wuhan) Network Technology was granted an irrevocable exclusive option to acquire, or designate a third party to acquire, all or part of the equity interest owned by Wei Liu and Weiqin Qiu in Wuhan Jufang Technology at any time at the price equal to the corresponding portion of liability of Kingsoft Shiyou (Wuhan) Network Technology borne by Wei Liu and Weiqin Qiu under the loan agreement. However, if the lowest transfer price permitted by the PRC Laws is higher than the amounts of those liabilities, the transfer price shall be the lowest price permitted by the PRC Laws. Despite the above, Wei Liu and Weiqin Qiu shall jointly waive the obligations of Kingsoft Shiyou (Wuhan) Network Technology for paying the shortfall in the case that the lowest price permitted by the PRC Laws is higher than the portion of liability, subject to the laws and regulations of the PRC. When the option is exercised by Kingsoft Shiyou (Wuhan) Network Technology, Kingsoft Shiyou (Wuhan) Network Technology is entitled to the rights to pay the transfer price by directly waiving the corresponding portion of liability of Kingsoft Shiyou (Wuhan) Network Technology borne by Wei Liu and Weiqin Qiu. The ratio of the waived liability of Wei Liu and Weiqin Qiu to their total liabilities shall be the same as that of the transferred equity interest held by Wei Liu and Weiqin Qiu to their total equity interest in Wuhan Jufang Technology. In addition, Kingsoft Shiyou (Wuhan) Network Technology was also granted an irrevocable exclusive option to acquire, or designate a third party to acquire, all or part of the assets of Wuhan Jufang Technology at any time at the lowest price permitted by the PRC Laws.
- (iv) Kingsoft Shiyou (Wuhan) Network Technology and Wuhan Jufang Technology entered into an exclusive technology development, support and consultation agreement on 16 July 2020, pursuant to which Kingsoft Shiyou (Wuhan) Network Technology agreed, on the terms, conditions and pricing as required by the agreement, to provide to Wuhan Jufang Technology, and Wuhan Jufang Technology agreed to exclusively accept, the technology development, support and consultation services for an indefinite term unless otherwise terminated by Kingsoft Shiyou (Wuhan) Network Technology in accordance with the terms of the agreement. The settlement period of the service fee payable by Wuhan Jufang Technology to Kingsoft Shiyou (Wuhan) Network Technology shall be negotiated and agreed by both parties separately. The relevant service fees shall be comprised of the results service fee (the remaining 80%–100% of business income of Wuhan Jufang Technology for the year, net of the mutually-agreed business cost of Wuhan Jufang Technology) and the mutually-agreed service fee (for the specified consultation services and technology services provided by Kingsoft Shiyou (Wuhan) Network Technology at the request of Wuhan Jufang Technology from time to time). Kingsoft Shiyou (Wuhan) Network Technology shall be entitled to the rights to adjust the above service fees at its discretion. Kingsoft Shiyou (Wuhan) Network Technology and Chengdu Kingsoft Shiyou Jufang Technology Co., Ltd. ("**Chengdu Kingsoft Shiyou Jufang Technology**", formerly known as Chengdu Jufang Technology Co., Ltd.), the subsidiary of Wuhan Jufang Technology, entered into an exclusive technology development, support and consultation agreement on 28 July 2020, pursuant to which Kingsoft Shiyou (Wuhan) Network Technology agreed, on the terms, conditions and pricing as required by the agreement, to provide to Chengdu Kingsoft Shiyou Jufang Technology, and Chengdu Kingsoft Shiyou Jufang Technology agreed to exclusively accept, the technology development, support and consultation services for an indefinite term unless otherwise terminated by Kingsoft Shiyou (Wuhan) Network Technology in accordance with the terms of the agreement. The settlement period of the service fee payable by Chengdu Kingsoft Shiyou Jufang Technology to Kingsoft Shiyou (Wuhan) Network Technology shall be negotiated and agreed by both parties separately. The relevant service fees shall be comprised of the results service fee (the remaining 80%–100% of business income of Shiyou Zhuhai for the year, net of the mutually agreed business cost of Shiyou Zhuhai) and the mutually-agreed service fee (for the specified consultation services and technology services provided by Shiyou Wuhan at the request of Shiyou Zhuhai from time to time). Shiyou Wuhan shall be entitled to the rights to adjust the above service fees at its discretion.
- (vi) The Natural Person Shareholders of Shiyou Zhuhai, Beijing Digital Entertainment, Shiyou Wuhan and Shiyou Zhuhai entered into a business operation agreement on 17 January 2022 (the “**Shiyou Zhuhai Business Operation Agreement**”), pursuant to which, each of the Shareholders of Shiyou Zhuhai and Shiyou Zhuhai shall make relevant undertakings and guarantee to Shiyou Wuhan in relation to the daily operation of Shiyou Zhuhai for a term of 10 years, unless otherwise terminated by Shiyou Wuhan, to ensure that Shiyou Zhuhai would perform the obligations under the relevant structure contracts relating to Shiyou Zhuhai.

DIRECTORS' REPORT (continued)

- (vii) The Natural Person Shareholders of Shiyou Zhuhai, Beijing Digital Entertainment, Shiyou Wuhan and Shiyou Zhuhai entered into a supplemental agreement on 31 May 2022, pursuant to which, Jiang Liu, one of the Natural Person Shareholders of Shiyou Zhuhai, transferred his equity interest in Shiyou Zhuhai to another Natural Person Shareholder Ke Zheng, and all rights and obligations of Jiang Liu under the Shiyou Zhuhai Loan Agreement, Shiyou Zhuhai Call Option Agreement, Shiyou Zhuhai Shareholder Voting Agreement, Shiyou Zhuhai Business Operation Agreement and the Shiyou Zhuhai Equity Pledge Agreement shall be assigned and novated to Ke Zheng. The parties shall continue to exercise their rights and obligations in accordance with the foregoing agreements.

The arrangement relating to Shiyou Zhuhai was substantially similar to the arrangement under the existing structure contracts relating to Kingsoft Qijian and Chengdu Digital Entertainment.

The independent non-executive Directors have reviewed the structure contracts relating to Shiyou Zhuhai and have confirmed that:

- these structure contracts are similar and consistent with those as disclosed in the prospectus of the Company dated 24 September 2007;
- no dividends or any other distributions have been made by Shiyou Zhuhai to the holders of its equity interests which are not otherwise subsequently assigned or transferred to the Group for the year ended 31 December 2025; and
- the terms of such structure contracts are fair and reasonable so far as the Group is concerned and in the interests of the shareholders and the Company as a whole.

voting power in Xiaomi, while other interests of Xiaomi are held by independent third parties. As such, Xiaomi Singapore is a connected person of the Company. Therefore, the entering into the Advertisement Service Agreement between KOSC and Xiaomi Singapore and the transactions contemplated thereunder will become continuing connected transactions of the Company under the Listing Rules.

For details of the above mentioned continuing connected transactions, relevant risk assessment and internal control measures, please refer to the announcement of the Company dated 19 November 2024.

The annual cap for the continuing connected transactions under the Advertisement Service Agreement for the period from 1 January 2025 to 31 December 2025 is US\$8,000,000, as compared with the actual transactions amount incurred for the period from 1 January 2025 to 31 December 2025 of US\$4,000,000.

Continuing Connected Transactions with Kingsoft Cloud Group

The Company and Kingsoft Cloud entered into a loan facility framework agreement (the "**Loan Facility Framework Agreement**") on 4 December 2023 in relation to the provision of the loan facility (the "**Loan Facility**") in the principal amount of up to RMB1.5 billion during the facility period commencing from 5 December 2023 and ending on 31 December 2025 (the "**Facility Period**"). Subject to the terms of the Loan Facility Framework Agreement, upon fulfillment of the conditions for drawdown, the relevant members of Kingsoft Cloud Group (each a "**Borrower**") may apply for drawdown by serving a written notice upon the relevant members of the Group (each a "**Lender**") within 10 working days prior to the relevant drawdown date.

As at the date of the Loan Facility Framework Agreement, Kingsoft Cloud was held as to 37.40% by the Company, and as to 12.25% by Xiaomi, an associate of Mr. Jun LEI, a Director and substantial shareholder of the Company. As such, Kingsoft Cloud constituted a commonly held entity of the Company under Chapter 14A of the Listing Rules. Therefore, the entering into the Loan Facility Framework Agreement and the transactions contemplated thereunder constituted continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

Kingsoft Cloud Group is engaged in cloud technology research and development, and offering related services. With over a decade of dedicated work in the cloud service industry, it has amassed significant technological expertise and a talented workforce, and it holds a pivotal role in the Group's overall cloud strategy. Computing power services, as an extension of cloud computing, continue to see high market demand, and is expected to have substantial room for future growth. By providing financial support to Kingsoft Cloud, we aim to actively boost its presence in the computing power sector, further fostering strategic collaboration within the Group's cloud business ecosystem.

Meanwhile, the provision of financial support to Kingsoft Cloud establishes a solid foundation for Kingsoft Cloud in acquiring computing power equipment and seizing opportunities in this rapidly evolving industry, which is advantageous for enhancing the Company's long-term shareholder value.

Prior to entering into the relevant specific loan agreement under the Loan Facility Framework Agreement, the Group has carried out due diligence and credit assessment works on the relevant Borrower to understand and verify various information including the Borrower's background, financial conditions and the purpose of the Loan Facility. It has obtained and reviewed the following information and documents to assess the background, financial strength and repayment ability of the Borrower, including but not limited to:

- (1). reviewing and assessing the then-current financial position and 2024 and 2025 cash flow projections of Kingsoft Cloud Group, and based on the current financial situation taking into account the short-term credit nature of the Unsecured Loan Facility, which must be repaid within 10 months, and in conjunction with other credit risk assessment steps taken, the Company agreed to provide the first drawdown under the Loan Facility Framework Agreement without fixed asset collateral;
- (2). corporate documents of the relevant Borrower and other members of Kingsoft Cloud Group such as articles of incorporation, certificate of incorporation, register of members and constitutional documents of the relevant Borrower;
- (3). the annual report for the year ended 31 December 2022 and interim report for the six months ended 30 June 2023 of Kingsoft Cloud Group published on the websites of Kingsoft Cloud, Nasdaq and the Stock Exchange;
- (4). audited financial statements of the relevant Borrower for the financial years ended 31 December 2022 and

management accounts of the relevant Borrower for the eleven months ended 30 November 2023; and (5). the borrower's business information, financial information, the commercial substance of the purpose of the borrowing, the adequacy of the justification for the borrowing, the reasonableness of the term of the borrowing and the amount of the borrowing, as well as the repayment credit enhancement program.

Based on the due diligence conducted and the risk assessment results, and having assessed the financial position of Kingsoft Cloud Group and evaluated the relevant Borrower's credit worthiness, the Company agreed to provide the Loan Facility and entered into the Loan Facility Framework Agreement. The Directors consider that the credit risks involved in the grant of the Loan Facility to the relevant Borrower are acceptable, having taken into account (i) corporate guarantee to be provided by the relevant subsidiaries of Kingsoft Cloud; (ii) the charge over fixed assets to be created in favour of the Group; (iii) the reputation, integrity and background of Kingsoft Cloud Group; (iv) the listing status of Kingsoft Cloud Group; and (v) the designated account of the relevant Borrower under supervision by the Company and/or the relevant Lender.

As a measure in respect of the recoverability and collection of the outstanding loan and accrued interests, the Group will keep monitoring the status of the relevant Borrower through, among others, paying attention to publicly available information of Kingsoft Cloud Group, conducting updated credit assessments of the relevant Borrower and obtaining and reviewing updated financial statements and business information thereof, so as to identify any irregularities of the relevant Borrower and material financial events in relation to the Loan Facility on a regular basis.

In connection with the relevant drawdown of the Loan Facility and in order to monitor the performance of the relevant specific loan agreement and security documents, and to mitigate the default risk associated with the Loan Facility, the Company has taken the following internal control measures, and considers that such measures are adequate and sufficient to safeguard its assets:

(1). the senior management of the Company will conduct continuous monitoring of the operations of the Kingsoft Cloud Group through fostering and maintaining regular communication and active interaction between the parties, and to ensure the use of Loan Facility according to the purpose thereof; (2). the designated staff of the accounting department of the Company will review each application for drawdown and closely monitor the aggregated outstanding drawdown balances and report the latest status to the chief financial officer/financial controller of the Company at least on a monthly basis to ensure that it does not exceed the annual cap. Monitor the account under supervision to maintain a balance level to ensure it covers the entire unpaid interest amount over the Facility Period; as well as keep track of the income status of Kingsoft Cloud Group's business to continuously assess the risk of Loan Facility repayment; (3). the chief financial officer/ financial controller of the Company will report to the Board on semi-annual basis in relation to the transaction status; (4). the Company will set an alert alarm when the aggregated outstanding drawdown balances is about to reach the annual cap. In case that the aggregated principal amount of the Loan Facility is expected to exceed the annual cap, the Company could timely comply with the requirements under Chapter 14A of the Listing Rules; and (5). the internal control department and relevant personnel of the Company will monitor and ensure all transactions contemplated under the Loan Facility Framework Agreement, the specific loan agreement, the corporate guarantee agreement and charge over fixed assets are carried out pursuant to its respective terms.

For details of the above mentioned continuing connected transactions, relevant risk assessment and internal control measures, please refer to the announcement of the Company dated 4 December 2023.

The annual cap for the continuing connected transactions under the Loan Facility Framework Agreement for the year ended 31 December 2025 is RMB1.5 billion. During the year ended 31 December 2025, there were no new loans provided to Kingsoft Cloud Group. As at 31 December 2025, all the loans provided to Kingsoft Cloud Group under the Loan Facility Framework Agreement have been fully repaid.

The independent non-executive Directors have reviewed the continuing connected transactions and confirmed that such continuing connected transactions had been entered into (i) in the ordinary and usual course of business of the Group, (ii) on normal commercial terms or better, and (iii) according to the agreement governing the transaction on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

DIRECTORS' REPORT (continued)

To the shareholders of Kingsoft Corporation Limited

(Continued in the Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of Kingsoft Corporation Limited (the "Company") and its subsidiaries (the "Group") set out on pages 70 to 189, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") as issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

<i>Share-based payments</i>	
<p>The Group operates several share option schemes and share award schemes for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations.</p> <p>The share-based compensation costs were measured with reference to the fair values of the share options and restricted share units with option features at the grant date. The fair values were determined by the management with the assistance of external valuers engaged by the Group, and the costs were recognised in share-based compensation costs in profit or loss, together with a corresponding increase in equity, over the vesting period. The share-based compensation costs recognised during the year ended 31 December 2025 were RMB296,474,000. The determination of fair values and the forfeiture rates of share options and awarded shares required significant management judgements and estimates and was based on assumptions.</p> <p>Disclosures about accounting policies, significant accounting judgements and estimates and share-based payments are included in Note 2.4 "Material Accounting Policies", Note 3 "Significant Accounting Judgements and Estimates" and Note 35 "Share-based Compensation Costs" to the consolidated financial statements.</p>	<p>Our audit procedures included reviewing key information (i.e. grant dates, number of share options and awarded shares granted and vesting terms), evaluating the competence, capabilities, objectivity and independence of external valuers and assessing the methodologies, assumptions and parameters adopted, such as the dividend yield, expected volatility, risk-free interest rate, and weighted average share price, in the valuation of the share options and restricted share units with option features with the assistance of our internal valuation specialists. For the awarded shares granted, we reviewed the fair value of the shares at the grant date.</p> <p>We recomputed the share-based compensation costs recorded during the year and reviewed estimation of forfeiture rate. We also assessed the Group's disclosures about the details of those share option schemes and share award schemes and the relevant assumptions.</p>

Other information included in the Annual Report

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT (continued)

Responsibilities of the directors for the consolidated financial statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT (continued)

Auditor's responsibilities for the audit of the consolidated financial statements (continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Wong Kwok Yin (practising certificate number: P05403).

1. CORPORATE AND GROUP INFORMATION (continued)

Information about subsidiaries and structured entities (continued)

Particulars of the Company's principal subsidiaries and structured entities held by the Group as at 31 December 2025 are as follows: (continued)

- (iii) These companies are registered as limited liability enterprises under PRC law, except for Beijing Kingsoft Office which is registered as a joint stock limited enterprise under PRC law.
- (iv) The Company does not have legal ownership in the equity of these entities. However, under certain contractual agreements (including power of attorney agreement, loan agreement, equity option agreement, equity interest pledge agreement and exclusive technical consulting and service agreement) entered into with the registered owners of these entities, the Company and its other legally owned subsidiaries control these entities by way of controlling the voting rights, governing their financial and operating policies, appointing or removing the majority of the members of their controlling authorities, and casting the majority of votes at meetings of such authorities. In addition, such contractual agreements also transfer the risks and rewards of these entities to the Company and/or its other legally owned subsidiaries. As a result, these entities are treated as subsidiaries of the Company and their financial statements have been consolidated by the Company.

The above table lists the subsidiaries and structured entities of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for derivative financial instruments, equity investments and certain other financial assets which have been measured at fair value. These financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2025. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.1 BASIS OF PREPARATION (continued)

Basis of consolidation (continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

The Company and certain subsidiaries have set up trusts or entities for the purpose of purchasing, administering and holding their shares for the share award scheme adopted. The Group has the power to govern the financial and operating policies of these trusts or entities and derive benefits from the services of the employees who have been awarded the shares through their continued employment with the Group. The assets and liabilities of these trusts or entities are included in consolidated statement of financial position.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted amendments to IAS 21 *Lack of Exchangeability* for the first time for the current year's financial statements. The Group has not early adopted any other standard or amendment that has been issued but is not yet effective.

Amendments to IAS 21 specify how an entity shall assess whether a currency is exchangeable into another currency and how it shall estimate a spot exchange rate at a measurement date when exchangeability is lacking. The amendments require disclosures of information that enable users of financial statements to understand the impact of a currency not being exchangeable. As the currencies that the Group had transacted in and the functional currencies of overseas subsidiaries, joint ventures and associates for translation into the Group's presentation currency were exchangeable, the amendments did not have any impact on the Group's financial statements.

2.3 ISSUED BUT NOT YET EFFECTIVE IFRS ACCOUNTING STANDARDS

The Group has not applied the following new and amended IFRS Accounting Standards, that have been issued but are not yet effective, in these financial statements. The Group intends to apply these new and amended IFRS Accounting Standards, if applicable, when they become effective.

IFRS 18	<i>Presentation and Disclosure in Financial Statements</i> ²
IFRS 19 and its amendments	<i>Subsidiaries without Public Accountability: Disclosures</i> ²

2.3 ISSUED BUT NOT YET EFFECTIVE IFRS ACCOUNTING STANDARDS (continued)

Further information about those IFRS Accounting Standards that are expected to be applicable to the Group is described below.

IFRS 18 replaces IAS 1 *Presentation of Financial Statements*. While a number of sections have been brought forward from IAS 1 with limited changes, IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Entities are required to classify all income and expenses within the statement of profit or loss into one of the five categories: operating, investing, financing, income taxes and discontinued operations and to present two new defined subtotals. It also requires disclosures about management-defined performance measures in a single note and introduces enhanced requirements on the grouping (aggregation and disaggregation) and the location of information in both the primary financial statements and the notes. Some requirements previously included in IAS 1 are moved to IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*, which is renamed as IAS 8 *Basis of Preparation of Financial Statements*. As a consequence of the issuance of IFRS 18, limited, but widely applicable, amendments are made to IAS 7 *Statement of Cash Flows*, IAS 33 *Earnings per Share* and IAS 34 *Interim Financial Reporting*. In addition, there are minor consequential amendments to other IFRS Accounting Standards. IFRS 18 and the consequential amendments to other IFRS Accounting Standards are effective for annual periods beginning on or after 1 January 2027 with earlier application permitted. Retrospective application is required. The Group is currently analysing the new requirements and assessing the impact of IFRS 18 on the presentation and disclosure of the Group's financial statements.

IFRS 19 allows eligible entities to elect to apply reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS Accounting Standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10 *Consolidated Financial Statements*, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements available for public use which comply with IFRS Accounting Standards. IFRS 19 was amended in 2025 to (i) remove disclosure objectives from IFRS 19; (ii) reduce the disclosure requirements relating to supplier finance arrangements and a specific class of financial liabilities; and (iii) replace disclosure requirements relating to management-defined performance measures with a cross-reference to IFRS 18 for entities that use these measures. Earlier application is permitted. As the Company is a listed company, it is not eligible to elect to apply IFRS 19 and its amendments. Some of the Company's subsidiaries are considering the application of IFRS 19 and its amendments in their specified financial statements.

Amendments to IFRS 9 and IFRS 7 *Amendments to the Classification and Measurement of Financial Instruments* clarify the date on which a financial asset or financial liability is derecognised and introduce an accounting policy option to derecognise a financial liability that is settled through an electronic payment system before the settlement date if specified criteria are met. The amendments clarify how to assess the contractual cash flow characteristics of financial assets with environmental, social and governance and other similar contingent features. Moreover, the amendments clarify the requirements for classifying financial assets with non-recourse features and contractually linked instruments. The amendments also include additional disclosures for investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features. The amendments shall be applied retrospectively with an adjustment to opening retained profits (or other component of equity) at the initial application date. Prior periods are not required to be restated and can only be restated without the use of hindsight. Earlier application of either all the amendments at the same time or only the amendments related to the classification of financial assets is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to IFRS 9 and IFRS 7 *Contracts Referencing Nature-dependent Electricity* clarify the application of the "own-use" requirements for in-scope contracts and amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts. The amendments also include additional disclosures that enable users of financial statements to understand the effects these contracts have on an entity's financial performance and future cash flows. The amendments relating to the own-use exception shall be applied retrospectively. Prior periods are not required to be restated and can only be restated without the use of hindsight. The amendments relating to the hedge accounting shall be applied prospectively to new hedging relationships designated on or after the date of the initial application. Earlier application is permitted. The amendments to IFRS 9 and IFRS 7 shall be applied at the same time. The amendments are not expected to have any significant impact on the Group's financial statements.

NOTES TO FINANCIAL STATEMENTS (continued)

2.3 ISSUED BUT NOT YET EFFECTIVE IFRS ACCOUNTING STANDARDS (continued)

Amendments to IFRS 10 and IAS 28 address an inconsistency between the requirements in IFRS 10 and in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss resulting from a downstream transaction when the sale or contribution of assets constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 was removed by the IASB. However, the amendments are available for adoption now.

Amendments to IAS 21 *Translation to a Hyperinflationary Presentation Currency* require the translation from a non-hyperinflationary functional currency into a hyperinflationary presentation currency at the closing rate. The amendments also require an entity whose functional currency and presentation currency are the currency of a hyperinflationary economy to restate the comparative amounts of a foreign operation whose functional currency is that of a non-hyperinflationary economy, by applying the general price index, in accordance with paragraph 34 of IAS 29 *Financial Reporting in Hyperinflationary Economies*, to the foreign operation's comparative figures. The amendments introduce certain additional disclosures. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Annual Improvements to IFRS Accounting Standards — Volume 11 set out amendments to IFRS 1, IFRS 7 (and the accompanying Guidance on implementing IFRS 7), IFRS 9, IFRS 10 and IAS 7. Details of the amendments that are expected to be applicable to the Group are as follows:

- **IFRS 7 *Financial Instruments: Disclosures*:** The amendments have updated certain wording in paragraph B38 of IFRS 7 and paragraphs IG1, IG14 and IG20B of the Guidance on implementing IFRS 7 for the purpose of simplification or achieving consistency with other paragraphs in the standard and/or with the concepts and terminology used in other standards. In addition, the amendments clarify that the Guidance on implementing IFRS 7 does not necessarily illustrate all the requirements in the referenced paragraphs of IFRS 7 nor does it create additional requirements. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- **IFRS 9 *Financial Instruments*:** The amendments clarify that when a lessee has determined that a lease liability has been extinguished in accordance with IFRS 9, the lessee is required to apply paragraph 3.3.3 of IFRS 9 and recognise any resulting gain or loss in profit or loss. However, the amendments do not address how a lessee distinguishes between a lease modification as defined in IFRS 16 and an extinguishment of a lease liability in accordance with IFRS 9. In addition, the amendments have updated certain wording in paragraph 5.1.3 of IFRS 9 and Appendix A of IFRS 9 to remove potential confusion. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- **IFRS 10 *Consolidated Financial Statements*:** The amendments clarify that the relationship described in paragraph B74 of IFRS 10 is just one example of various relationships that might exist between the investor and other parties acting as de facto agents of the investor, which removes the inconsistency with the requirement in paragraph B73 of IFRS 10. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- **IAS 7 *Statement of Cash Flows*:** The amendments replace the term "cost method" with "at cost" in paragraph 37 of IAS 7 following the prior deletion of the definition of "cost method". Earlier application is permitted. The amendments are not expected to have any impact on the Group's financial statements.

2.4 MATERIAL ACCOUNTING POLICIES

Investments in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Business combinations and goodwill (continued)

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its derivative financial instruments, and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Property, plant and equipment and depreciation (continued)

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal estimated useful lives used for this purpose are as follows:

Buildings	Over the lease terms of related leasehold lands
Electronic equipment	2 to 4 years
Office equipment and fixtures	3 to 5 years
Motor vehicles	4 to 5 years
Leasehold improvements	Over the shorter of the expected life of the leasehold improvements and the lease terms

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress is stated at cost less any impairment losses, and is not depreciated. It is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

Investment properties

Investment properties are interests in land and buildings (including right-of-use assets) held to earn rental income and/or for capital appreciation. Such properties are measured at cost less accumulated depreciation and any impairment losses.

Depreciation is calculated on the straight-line basis to write off the cost of each investment property to its residual value over its estimated useful life. The estimated useful lives are as follows:

Leasehold lands	Over the lease term
Buildings	Over the lease term of the leasehold land

Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of the retirement or disposal.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Intangible assets (other than goodwill) (continued)

Purchased software, technology, trademark, non-compete agreements and customer relationship

Purchased software, technology, trademark, non-compete agreements and customer relationship are stated at cost less any impairment losses and are amortised on the straight-line basis over the estimated economic lives of 1 to 10 years.

Research and development costs

All research costs are charged to the statement of profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold lands	Over lease terms
Buildings	1 to 6 years
Equipment	3 to 5 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

Leases (continued)

Group as a lessee (continued)

(b) Lease liabilities (continued)

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are separately presented in the Group's consolidated statement of financial position.

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of properties and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

Investments and other financial assets (continued)

Initial recognition and measurement (continued)

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through other comprehensive income (debt instruments)

For debt investments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to the statement of profit or loss.

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Investments and other financial assets (continued)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on the equity investments are also recognised as other income in the statement of profit or loss when the right of payment has been established.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in the statement of profit or loss. Reassessment occurs if there is a change in the terms of the contract that significantly modifies the cash flows.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Impairment of financial assets (continued)

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 180 days past due. The Group has rebutted the 90 days past due presumption of default based on reasonable and supportable information, including the Group's credit risk control practices and the historical recovery rate of financial assets over 90 days past due. However, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

Stage 1 — Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

Stage 2 — Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs

Stage 3 — Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, or as payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, derivative financial instruments, interest-bearing bank loans, lease liabilities and the liability component of convertible bonds.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (trade and other payables)

After initial recognition, trade and other payables, and lease liabilities are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Convertible bonds

The component of convertible bonds that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs. On issuance of convertible bonds, the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond; and this amount is carried as a long term liability on the amortised cost basis until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in shareholders' equity, net of transaction costs. The carrying amount of the conversion option is not remeasured in subsequent years. Transaction costs are apportioned between the liability and equity components of the convertible bonds based on the allocation of proceeds to the liability and equity components when the instruments are first recognised.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Derivative financial instruments

Initial recognition and subsequent measurement

Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in fair value of derivatives are taken directly to the statement of profit or loss.

Treasury shares

Own equity instruments which are reacquired and held by the Company or the Group (treasury shares) are recognised directly in equity at cost. No gain or loss is recognised in the statement of profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and comprises materials and production costs related to the purchase and production of inventories. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and bank balances comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except that deferred tax is not recognised for the Pillar Two income taxes.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Income tax (continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as a reduction of the related expense when the expense is incurred.

Where the grant relates to an asset, the fair value is deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

(a) Office software and services

The Group is engaged in research and development and provision of WPS Office, WPS 365, WPS AI and other office products and services.

Sales of application software

Revenue from the sales of application software is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the application software.

Some contracts for the sales of application software require the Group to provide when-and-if-available upgrades, technical support and training to the customers. Contracts which bundled sales of application software and after-sale services are comprised of two performance obligations because the promises to transfer the application software and provide after-sale services are distinct and separately identifiable. Accordingly, the revenue from the sales of application software is recognised upon the control of the software is transferred and the revenue in relation to services associated with the software is amortised over the period that the services are provided.

WPS Office Subscription service

The Group provides WPS Office subscription service, including membership and various virtual products and services to individual and enterprise users.

The Group provides different types of memberships of office application software, which enables subscription users to access to various products and functions during the membership validity period. The performance obligation of the subscription service is satisfied over the period in which the subscription services are provided, and payment is generally in advance. Revenue is recognised over the subscription period.

The Group provides various kinds of virtual products and services, such as resume templates and paper check service, at a fix price. Payment is generally in advance. Revenue is recognised and the performance obligation is satisfied at the point in time when the virtual products are available for use by the customers or service is provided to customers.

(b) Services rendered in online games and mobile games

The Group engages in research and development of games, and provision of PC games, mobile games services, etc. Revenue from services in PC games and mobile games is recognised upon services are rendered to players. The Group offers subscription service and virtual items to players. The service fee is paid directly by end players mainly via online payment channels or distributors.

The Group operates certain of its games through cooperation with third-party game distribution platforms under certain co-operation agreements. The Group is responsible for providing ongoing updates of new contents and technical support for the operation of the games. The third-party game distribution platforms are responsible for distribution, marketing, platform maintenance and payment collections. The third-party game distribution platforms collect the payment from players and remit the net proceeds, after deducting the commission charged, to the Group. In general, the portion of the proceeds received by the Group is calculated based on the standard price of in-game virtual currency sold and the agreed sharing ratios in the contracts signed with third-party game distribution platforms. As some third-party game distribution platforms offer various marketing discounts from time to time to players to encourage spending, the actual prices paid by players may be lower than the standard prices of in-game virtual currency. Such marketing discount information is not available to be tracked reliably, as such, the Group is not able to make a reasonable estimate of the gross amount received. In this case, the net amount received from these third-party game distribution platforms is recognised as contract liabilities. For other third-party game distribution platforms which do not offer discounts, gross amount before deduction of commission charged is recognised as contract liabilities, and the relevant commission is recognised as cost of revenue.

Certain of the Group's games were licensed from game developers and published and operated by the Group in defined regions and/or countries or within a specific period. The Group has evaluated the respective roles and responsibilities of the Group and the game developers in the delivery of game experience to players and concluded that the Group have the primary responsibility in these licensing arrangements as the Group are responsible for marketing and promotion of the games in the market, hosting the game servers, determining the price of the in-game virtual items, selection of distribution and payment channels and providing customer services.

The Group recognises revenue under different revenue streams described below.

Subscription services in online games

Several online games of the Group are not free to play. The Group applies a pay-to-play subscription-based model, in which the players pay for a pre-specified length of game playing time within a specified period of time, revenue is recognised based on the actual game playing time by the players or amortised over the pre-determined period because the players simultaneously receives and consumes the benefits provided by the Group.

Sales of in-game virtual items

Some online games and all mobile games of the Group are free to play. Players can purchase game cards or online points and convert them into various in-game virtual items for better in-game experience. Given there is obligation to maintain the in-game virtual items and allow users to gain access and experience from them, revenue is recognised when services are rendered.

(b) Services rendered in online games and mobile games (continued)

Sales of in-game virtual items (continued)

- Consumable items represent in-game virtual items that can be consumed by player actions or expire over a predetermined expiration time. The Group keeps track of the consumption or expiration of all the consumable items in the game. Revenue is recognised based on consumption, expiration period, or player life, where applicable, in accordance with the type and term of relevant virtual items as determined by management.
- Permanent items represent in-game virtual items that are accessible by the players as long as they play the game. The Group will provide continuous services in connection with these permanent items until these items are no longer used by the players. Revenues is recognised over player life as determined by management.

Licensing fees

The Group also derives revenue from licensing games to third-party publishing partners, who operate the Group's games in defined regions and/or countries or within a specific period.

The Group has evaluated the respective roles and responsibilities of the Group and the third-party game publishers in the delivery of game experience to players and concluded that the third-party game publishers have the primary responsibility in these licensing arrangements as they are responsible for marketing and promotion of the games in the market, hosting the game servers, determining the price of the in-game virtual items, selection of distribution and payment channels and providing customer services. Accordingly, the Group records licensing fees, which are calculated based on a pre-determined percentage of the proceeds received by game publishers from players, on a net basis.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms.

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Contract assets

If the Group performs by transferring goods or services to a customer before being unconditionally entitled to the consideration under the contract terms, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets. They are reclassified to trade receivables when the right to the consideration becomes unconditional.

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Contract liabilities

Contract liabilities represent cash received or receivables (whichever is earlier) from the subscription of WPS Office and related service and payment for online and mobile games in advance of services being rendered. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Share-based payments

The Group operates several share option schemes and share award schemes. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services in exchange for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model for share options and based on the market value for awarded shares. Further details of the fair values of share options and awarded shares are given in note 35 to the financial statements.

The cost of equity-settled transactions is recognised in share-based compensation costs, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Defined contribution plan for PRC employees

Full-time employees of the Group's subsidiaries which operate in Chinese mainland are required to participate in a defined contribution scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the defined contribution scheme which covers pension, medical care, unemployment insurance, employee housing fund and other welfare. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the defined contribution scheme. The Group has no legal obligation for the benefits beyond the contributions made.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Events after the reporting period

If the Group receives information after the reporting period, but prior to the date of authorisation for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its financial statements. The Group will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its financial statements, but will disclose the nature of the non-adjusting events and an estimate of their financial effects, or a statement that such an estimate cannot be made, if applicable.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in note 13 to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

These financial statements are presented in RMB. The functional currency of the Company is HK\$. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

2.4 MATERIAL ACCOUNTING POLICIES (continued)

Foreign currencies (continued)

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries and associates are currencies other than RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into RMB at the exchange rates that approximate to those prevailing at the dates of the transactions.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve, except to the extent that the differences are attributable to non-controlling interests. On disposal of a foreign operation, the cumulative amount in the reserve relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of the Company and certain overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of the Company and certain overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Accounting for companies governed under contractual arrangements as subsidiaries

The Company and some of its subsidiaries do not hold any equity interests in certain of their subsidiaries. Nevertheless, under the contractual agreements entered into between the Group and the shareholders who are the registered owners of those subsidiaries, the directors of the Company determine that the Group has the power to govern the financial and operating policies of those subsidiaries so as to obtain benefits from their activities. As such, those subsidiaries are accounted for as subsidiaries of the Group for accounting purposes.

The Group's revenue generated from the entities which are controlled by the Group through the contractual agreements described above amounted to approximately RMB3,337,929,000 (2024: RMB4,705,368,000) for the year ended 31 December 2025. At 31 December 2025, the Group's net assets held by these entities amounted to approximately RMB3,133,360,000 (2024: RMB3,026,257,000).

Deferred tax assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of deferred tax assets relating to recognised tax losses at 31 December 2025 was RMB4,004,000 (2024: RMB13,556,000). The amount of unrecognised tax losses at 31 December 2025 was RMB1,805,930,000 (2024: RMB2,148,408,000). These losses related to subsidiaries that have a history of losses, have not expired, and may not be used to offset taxable income elsewhere in the Group. The subsidiaries have neither any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the Group has determined that it cannot recognise deferred tax assets on the tax losses carried forward. Further details are included in note 33 to the financial statements.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Fair value of financial assets at fair value through profit or loss

The Group held financial assets at fair value through profit or loss amounting to RMB5,207,496,000 (2024: RMB3,315,578,000) as at 31 December 2025. The wealth management products amounting to RMB4,477,396,000 (2024: RMB2,762,513,000) have been valued based on the expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics. This valuation requires the Group to make estimates about expected future cash flows, credit risk volatility and discount rates and hence they are subject to uncertainty. Fair value of certain of financial instruments is determined using valuation model with the assistance of the external valuer engaged by the Group. Management makes estimates and assumptions about factors, such as the risk-free rate and, expected volatility as the parameters for applying the valuation. Further details are included in note 44 to the financial statements.

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill at 31 December 2025 was RMB185,564,000 (2024: RMB185,564,000). Further details are given in note 18.

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the investments in associates, investments in joint ventures and right-of-use assets) at the end of each reporting period. Indefinite life intangible assets are tested for impairment annually and at other times when such an indicator exists. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by product type and customer type and rating).

The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 26 to the financial statements.

NOTES TO FINANCIAL STATEMENTS (continued)

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Useful lives of virtual items provided in the Group's online games and mobile games

The players purchase in-game virtual items provided in the Group's online games and mobile games, which include items consumed at a single point in time, over a pre-specified period or throughout the whole game life. Revenue is recognised over the estimated lives of the virtual items or the users, where appropriate, which are determined on the basis of the Group's best estimate that takes into account all known, available and relevant information at the time of assessment. The Group estimates the lives of the in-game virtual items and the users on a game-by-game basis and re-assesses periodically. Future usage patterns may differ from the historical usage patterns on which the revenue recognition is based. The Group monitors the operating strategy and business patterns of the online games and mobile games. Any adjustments arising from changes in the lives of the virtual items and the users as a result of updated information will be accounted for prospectively as a change in accounting estimate.

Recognition of share-based compensation costs

The Company and some of its subsidiaries adopted their own share award schemes and/or share option schemes. The fair values of the awarded shares and options granted during the year ended 31 December 2025 were valued by external valuers based on valuation model. The valuation requires the Group to make estimates about the dividend yield, expected volatility, risk-free interest rate, expected forfeiture rate and weighted average share price, and hence it is subject to uncertainty. The fair value of these awarded shares and options granted during the year ended 31 December 2025 was approximately RMB682,568,000 (2024: RMB175,341,000). The share-based compensation costs recognised during the year ended 31 December 2025 amounted to RMB296,474,000 (2024: RMB275,867,000).

The grant of awarded shares and share options is conditional upon the satisfaction of specified vesting conditions, including the service period. Judgement is required to take into account the vesting conditions and adjust the number of awarded shares and share options included in the measurement of share-based compensation costs.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has two reportable operating segments as follows:

- (a) the office software and services segment engages in the research and development and provision of WPS Office, WPS 365, WPS AI and other office products and services; and
- (b) the entertainment software and others segment engages in the research and development of games, and provision of PC games, mobile games services, etc.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that net other gains/(losses), finance income, non-lease-related finance costs as well as share of profits and losses of joint ventures and associates are excluded from such measurement.

(b) Performance obligations

Information about the Group's performance obligations is summarised below:

Sales of application software

The performance obligation for the sales of application software is satisfied upon delivery of the application software and payment is generally due within 30 to 90 days from invoice date, except for certain customers, where payment in advance may be required. The performance obligation associated with the sales of application software is satisfied at the point in time when the products are delivered.

WPS Office subscription services

The performance obligation for membership service is satisfied over time as services are rendered. The performance obligations for the sales of virtual products/services are satisfied at the point in time when the products are available for use or services are rendered. The payment in advance is normally required.

Game services and royalties

The performance obligation is satisfied over time as services are rendered and payment is generally due within 30 to 90 days from the date of billing, except for individual customers and certain agents, where payment in advance is required.

The amounts of transaction prices allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December are as follows:

During the year and the prior years, share options and awarded shares were granted to certain non-director and non-chief executive highest paid employees in respect of their services to the Group, further details of which are included in the disclosures in note 35 to the financial statements. The fair value of such options and awarded shares, which has been recognised in the consolidated statement of profit or loss over the vesting period, was determined as at the date of grant and the amount included in the financial statements for the current year is included in the above non-director and non-chief executive highest paid employees' remuneration disclosure.

12. INCOME TAX

PRC corporate income tax represents the tax charged on the estimated assessable profits arising in Chinese mainland during the year. In general, the PRC subsidiaries of the Group are subject to the PRC corporate income tax rate of 25% except for certain PRC subsidiaries which are entitled to tax holidays and preferential tax rates.

Hong Kong profits tax has been provided at the rate of 16.5% (2024: 16.5%) on estimated assessable profits arising in Hong Kong during the year, except for one subsidiary of the Group which is a qualifying entity under the two-tiered profits tax rates regime. The first HK\$2,000,000 (2024: HK\$2,000,000) of assessable profits of this subsidiary are taxed at 8.25% (2024: 8.25%) and the remaining assessable profits are taxed at 16.5% (2024: 16.5%).

Pillar Two income taxes

The Group is within the scope of the Pillar Two model rules. The Group has applied the temporary mandatory exception to recognising and disclosing information about deferred tax assets and liabilities arising from Pillar Two income taxes. From 1 January 2025, the Group is liable to Pillar Two income taxes under the Hong Kong Inland Revenue (Amendment) (Minimum Tax for Multinational Enterprise Groups) Ordinance 2025 for its earnings in Hong Kong. The Group will account for the Pillar Two income taxes as current tax when incurred. Pillar Two legislation has been enacted or substantively enacted but not yet in effect as at 31 December 2025 in certain jurisdictions in which the Group operates, including Chinese mainland.

- (a) The actual amount of the 2024 dividend finally paid was RMB190,472,000, after eliminating the amount of RMB1,106,000 paid for shares held by the trust on behalf of the Company for the Company's share award arrangements and future share cancellation.
- (b) The proposed final dividend for the year is subject to the approval of the Company's shareholders at the forthcoming annual general meeting.

14. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 1,373,006,083 (2024: 1,332,588,014) outstanding during the year.

The calculation of the diluted earnings per share amounts is based on the profit for the year attributable to ordinary equity holders of the parent, adjusted to reflect the impact on earnings arising from the share option schemes and the share award schemes adopted by the Group's subsidiaries, where applicable. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares outstanding during the year, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

The calculations of basic and diluted earnings per share are based on:

	2025 RMB'000	2024 RMB'000

16. INVESTMENT PROPERTIES (continued)

The Group's investment properties consist of buildings and leasehold lands in Zhuhai, Guangdong. As at 31 December 2025, the fair value of the buildings and the leasehold lands was approximately RMB122 million (2024: RMB294 million) which was estimated based on the income approach model.

Fair value hierarchy

The fair value of the Group's investment properties was estimated by management, using Term and Reversion Method, taking into account the rental income derived from the existing leases with due allowance for the reversionary income potential of the leases, which is then capitalized into the value at an appropriate rate. The following table illustrates the fair value hierarchy of the Group's investment properties:

	FAIR VALUE MEASUREMENT AS AT 31 DECEMBER 2025 USING			TOTAL RMB'000

17. LEASES

The Group as a lessee

The Group has lease contracts for various items of buildings and equipment used in its operations. Lump sum payments were made upfront to acquire the leased land from the owners with lease periods of 50 to 70 years, and no ongoing payments will be made under the terms of these land leases. Leases of buildings generally have lease terms between several months and 6 years, while equipment generally has lease terms of 5 years.

Impairment testing of goodwill

Goodwill acquired through business combinations is allocated to the office software and services cash-generating unit for impairment testing.

The recoverable amount of the office software and services cash-generating unit has been determined based on a value in use calculation using cash flow projections based on financial budgets covering a five-year period approved by senior management. The discount rate applied to the cash flow projections is 20%. The growth rate used to extrapolate the cash flows of the office software and services unit beyond the five-year period is 2.0%.

18. GOODWILL (continued)

Impairment testing of goodwill (continued)

The key assumptions on which management has based its cash flow projections to undertake impairment testing of goodwill are as follows: (i) budgeted revenue, determined based on the revenue achieved in the year immediately before the budget year and expected market development; and (ii) discount rate, before tax and reflects specific risks relating to the relevant unit. The values assigned to the key assumptions are consistent with external information sources.

Based on the results of the impairment testing of goodwill, in the opinion of the directors, no impairment provision was considered necessary as at 31 December 2025.

NAME	PARTICULARS OF ISSUED SHARES HELD	PLACE OF REGISTRATION AND BUSINESS	PERCENTAGE OF			PRINCIPAL ACTIVITIES
			OWNERSHIP INTEREST	VOTING POWER	PROFIT SHARING	
Kingsoft Cloud	Ordinary shares	Cayman Islands/ Chinese mainland	33	33	33	Investment holding

As at 31 December 2025, the Group held 33.32% (2024: 38.59%) of the ordinary shares in Kingsoft Cloud which are listed on the National Association of Securities Dealers Automated Quotations and the Stock Exchange of Hong Kong Limited. As at 31 December 2025, the carrying amount of the Group's investment in Kingsoft Cloud was RMB3,073,472,000 (2024: RMB1,911,072,000).

As at 31 December 2025, the Group performed an impairment assessment on its investment in Kingsoft Cloud. The recoverable amount of investment in Kingsoft Cloud was determined based on a value in use calculation using expected cash flow projections approved by senior management covering a period of five years. The discount rate applied in the impairment test of 31 December 2025 to the expected cash flow projections was 12% (2024: 13%), which was determined with reference to the average rate for companies in relevant industry with similar business risk, and the cash flows projection beyond the five-year period were extrapolated using a growth rate of 2.0% (2024: 2.0%), which was the same as the long-term average growth rate of the industry.

The following describes each key assumption on which management has based its expected cash flow projections to undertake impairment testing:

Revenue growth rate — The basis used to determine the revenue growth rate is the historical revenue growth rate, adjusted for expected market development and Kingsoft Cloud's business plan.

Discount rate — The discount rate used is before tax and reflects specific risks relating to the relevant business.

Based on the result of the impairment testing of investment in Kingsoft Cloud, in the opinion of the directors, no impairment provision was considered necessary during the years ended 2025 and 2024.

Aggregate carrying amount of the Group's investments in the associates	1,494,030	1,573,020

- (i) The Group has discontinued the recognition of its share of losses of two (2024: two) associates because the share of losses of these associates exceeded the Group's interest in the associates and the Group has no obligation to take up further losses. The amounts of the Group's unrecognised share of losses of these associates for the year ended 31 December 2025 and cumulatively were RMB243,000 (2024: RMB547,000) and RMB2,757,000 (2024: RMB2,514,000), respectively.
- (ii) The Group's balances with the associates are disclosed in note 42(b) to the financial statements.
- (iii) As at 31 December 2025, the Group held 43.47% (2024: 44.51%) of the ordinary shares in Cheetah Mobile which are listed on the New York Stock Exchange in the form of American depository shares. As at 31 December 2025, the carrying amount of the Group's investment in Cheetah Mobile was RMB460,590,000 (2024: RMB583,803,000).

As at 31 December 2025, the Group performed an impairment assessment on its investment in Cheetah Mobile. The recoverable amount of investment in Cheetah Mobile was determined based on a value in use calculation using expected cash flow projections approved by senior management covering a period of five years. The discount rate applied to the expected cash flow projections was 20% (2024: 20%), which was determined with reference to the average rate for companies in relevant industry with similar business risk, and the cash flow projections beyond the five-year period were extrapolated using a terminal growth rate of 2% (2024: 2.5%), which was the same as the long-term average growth rate of the industry.

The following describes each key assumption on which management has based its expected cash flow projections to undertake impairment testing:

Revenue growth rate — The basis used to determine the revenue growth rate is the historical revenue growth rate, adjusted for expected market development and Cheetah Mobile's business plan.

Discount rate — The discount rate used is before tax and reflects specific risks relating to the relevant business. The values assigned to the key assumptions are consistent with external information sources.

Based on the result of the impairment testing of investment in Cheetah Mobile, in the opinion of the directors, no impairment provision was considered necessary during the years ended 2025 and 2024.

The Group's trading terms with its customers are mainly on credit, except for sales to individual customers or to certain agents, where payment in advance is normally required. The credit period is generally one month, extending up to twelve months for major customers. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

Included in the Group's trade receivables are amounts due from related parties RMB44,905,000 (2024: RMB86,491,000) which are repayable on credit terms similar to those offered to the major customers of the Group (note 42(b)).

Amounts written back/(written off)	9,179	(11,478)
Exchange realignment	(67)	(30)
At end of year	86,746	64,957

An impairment analysis is performed at each reporting date individually or using a provision matrix to measure expected credit losses collectively. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., product type and customer type and rating). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Amounts written off as uncollectable	(23,099)	(1,820)
At end of year	33,042	54,600

Where applicable, an impairment analysis is performed at each reporting date by considering the probability of default of comparable companies with published credit ratings. In the situation where no comparable companies with credit ratings can be identified, expected credit losses are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. As at 31 December 2025, the loss allowance for impairment of prepayments, other receivables and other assets was recognised by the Group mainly for its prepayments to third-party game distribution platforms and loan receivables.

32. CONVERTIBLE BONDS

On 29 April 2020, the Company issued five-year convertible bonds in the principal amount of HK\$3,100,000,000 (equivalent to RMB2,827,820,000) which bear interest at a rate of 0.625% per annum payable semi-annually (the "2020 Convertible Bonds"). The 2020 Convertible Bonds are convertible at the option of the bondholders into ordinary shares of the Company from 9 June 2020 to the date falling 10 days prior to the maturity date, at a price of HK\$35.7637 per share, subject to adjustments. On the maturity date, any 2020 Convertible Bonds not converted will be redeemed by the Company at 105.85% of the principal amount together with accrued and unpaid interest thereon.

The fair value of the liability component was estimated at the issuance date using an equivalent market interest rate for a similar bond without a conversion option. The residual amount is assigned as the equity component and is included in Shareholders' equity.

In accordance with the terms and conditions of the 2020 Convertible Bonds, the dividend payments made after the issuance of the 2020 Convertible Bonds resulted in adjustments to the conversion price of the 2020 Convertible Bonds and the conversion price of the 2020 Convertible Bonds was adjusted to HK\$34.77 per share after the latest adjustment became effective on 8 June 2024.

During the period from 11 April 2025 to 17 April 2025, the Company issued a total number of 65,401,193 shares to the bondholders from which it received conversion notices. Such convertible bonds, representing approximately principal amount of HK\$2,274 million in aggregate, had been converted at the prevailing adjusted conversion price of HK\$34.77 per share.

Pursuant to the terms and conditions of the 2020 Convertible Bonds, on 29 April 2025 (i.e., the maturity date of the 2020 Convertible Bonds), the Company has fully redeemed the outstanding 2020 Convertible Bonds at the principal amount of approximately HK\$826 million together with all accrued and unpaid interests and fees thereon. Accordingly, there are no outstanding 2020 Convertible Bonds in issue following the aforesaid redemption.

The movements of the liability component and the equity component of the 2020 Convertible Bonds for the years ended 31 December 2025 and 2024 are set out below:

33. DEFERRED TAX (continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2025 RMB'000	2024 RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	79,936	137,223
Net deferred tax liabilities recognised in the consolidated statement of financial position	(356,414)	(205,294)
	(276,478)	(68,071)

The Group has tax losses arising in Chinese mainland of RMB1,703,177,000 as at 31 December 2025 (2024: RMB2,049,132,000) that will expire in one to ten years for offsetting against future taxable profits.

The Group also has tax losses arising in Hong Kong of RMB95,385,000 (2024: RMB98,994,000) that are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose.

Deferred tax assets have not been recognised in respect of the following items:

	2025 RMB'000	2024 RMB'000
Tax losses	1,805,930	2,148,408
Deductible temporary differences	7,444	6,569
	1,813,374	2,154,977

Deferred tax assets have not been recognised in respect of the above items losses as they have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the above items can be utilised.

The Group is liable for withholding taxes on dividends distributed by those subsidiaries established in Chinese mainland in respect of earnings generated from 1 January 2008. The applicable rate is 5% or 10% for the Group.

A deferred tax liability is recognised for the estimated withholding taxes to the extent that it is probable that those subsidiaries will distribute earnings in the foreseeable future. This requires an estimation of the likely timing and level of dividends to be distributed, and a judgement as to whether the dividends are associated with earnings generated from 1 January 2008 or not. The aggregate amount of temporary differences associated with investments in subsidiaries in Chinese mainland, for which deferred tax liabilities have not been recognised for withholding taxes that would be payable on the unremitted earnings of these subsidiaries, totalled approximately RMB17,036 million at 31 December 2025 (2024: RMB15,987 million). In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

NOTES TO FINANCIAL STATEMENTS (continued)

Year ended 31 December 2025

35. SHARE-BASED COMPENSATION COSTS

The Company's share award arrangements

- (a) The Company adopted the 2011 Share Option Scheme for the purpose of providing incentives and rewards to eligible participants. Eligible participants of the 2011 Share Option Scheme include the directors and other employees of the Group or any of the Group's invested entities. The 2011 Share Option Scheme became effective on 9 December 2011 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The total number of shares which may be issued upon exercise of all share options to be granted under the 2011 Share Option Scheme and any other share option schemes of the Company shall not in aggregate exceed 10% of the total number of shares in issue on 9 December 2011. The maximum number of shares issuable under share options to each eligible participant in the 2011 Share Option Scheme within any 12-month period is limited to 1% of the shares of the Company at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their respective associates, are subject to approval in advance by the independent non-executive directors of the Company. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of grant) in excess of HK\$5,000,000, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors, and commences after a vesting period determined at the discretion of the board of directors and ends on a date which is no later than 10 years from the date of offer of the share options.

The exercise price of share options is determinable by the directors, but may not be less than the highest of (i) the Stock Exchange closing price of the Company's shares on the date of offer of the share options; (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of offer; and (iii) the nominal value of a share.

There are no cash settlement alternatives. The Group does not have a past practice of cash settlement for these share options. The Group accounts for the Scheme as an equity-settled plan.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

The 2011 Share Option Scheme was terminated on 8 December 2021 and the options granted before the termination date of the 2011 Share Option Scheme shall continue to be valid and effective until the options' expiry date.

The fair value of the RSUs of Kingsoft Office granted under the 2024 Kingsoft Office Share Award Scheme during the year was estimated by management on the grant date, using a binomial model, taking into account the terms and conditions upon which the RSUs were granted. The following table lists the inputs to the model used:

	2024
Dividend yield (%)	0.31
Expected volatility (%)	46.87–53.70
Risk-free interest rate (%)	1.00–1.94
Weighted average share price (RMB per share)	121.77–187.26

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the RSUs granted was incorporated into the measurement of fair value.

The total expense in respect of the 2024 Kingsoft Office Share Award Scheme for the year ended 31 December 2025 was RMB60,467,000 (2024: RMB33,925,000).

35. SHARE-BASED COMPENSATION COSTS (continued)

Shiyou Holdings' share award arrangements

- (a) On 13 April 2022, the shareholders and directors of the Shiyou Holdings, a subsidiary of the Company, approved and adopted the Shiyou Holdings Share Award Scheme for the purpose of providing incentives and rewards to eligible participants, in which selected employees of Kingsoft Shiyou Holdings and its subsidiaries are entitled to participate. Unless early terminated by the directors of Shiyou Holdings, the Shiyou Holdings Share Award Scheme is valid and effective for a term of ten years commencing from 13 April 2022.

The directors of Shiyou Holdings will not grant those awarded shares which would result in the total number of shares (but not counting any shares which have lapsed or have been forfeited) greater than 50,000,000 shares, as at the date of such grant.

The vesting period of the awarded shares granted is determined at the discretion of the board of directors of Shiyou Holdings.

No share awards was granted under the Shiyou Holdings Share Award Scheme since its adoption.

36. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity of the financial statements.

In accordance with the regulations in the PRC and the respective articles of association, the PRC subsidiaries of the Group are required to make an appropriation of retained profits equal to at least 10% of their respective after-tax profits, calculated in accordance with the PRC accounting standards and regulations. Such appropriations are classified in the consolidated statement of financial position as statutory reserves and start from the first period in which after-tax profits exceed all prior year accumulated losses. Appropriations to these reserves are not required after these reserves have reached 50% of the registered capital of the respective companies. In addition, the PRC subsidiaries may, subject to a shareholders' resolution, draw a discretionary reserve from their after-tax profits. The reserves shall be used to offset accumulated losses, or to increase registered capital of the companies. Where the statutory reserves are converted into capital, the remaining statutory reserve balance shall be no less than 25% of the registered capital prior to the conversion.

Changes in the Company's ownership interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiary, and the difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received shall be recognised directly in equity and attributed to the owners of the parent, which is recorded in "other capital reserve" in the consolidated statement of changes in equity of the financial statements.

44. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

	CARRYING AMOUNTS		FAIR VALUES	
	2025 RMB'000	2024 RMB'000	2025 RMB'000	2024 RMB'000
FINANCIAL ASSETS				
Loan receivables	18,031	16,936	16,433	15,435
Equity investments designated at fair value through other comprehensive income	—	17,814	—	17,814
Financial assets at fair value through profit or loss	5,207,496	3,315,578	5,207,496	3,315,578
	5,225,527	3,350,328	5,223,929	3,348,827
FINANCIAL LIABILITIES				
Derivative financial instrument	—	7,116	—	7,116
Other current liabilities	—	62,194	—	68,137
Liability component of convertible bonds	—	2,985,899	—	2,998,123
	—	3,055,209	—	3,073,376

Management has assessed that the fair values of cash and bank deposits, restricted cash, trade receivables, trade payables, financial assets included in prepayments, other receivables and other assets, interest-bearing bank loans and financial liabilities included in other payables and accruals approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the acting chief financial officer ("CFO") and the audit committee. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the acting CFO. The valuation process and results are discussed with the audit committee.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair value of loan receivables has been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The fair value of the liability portion of the convertible bonds is estimated by discounting the expected future cash flows using an equivalent market interest rate for a similar convertible bond with consideration of the Group's own non-performance risk.

44. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

The fair value of an unlisted equity investment designated at fair value through other comprehensive income has been estimated using a market-based valuation technique and equity valuation allocation model. These valuation techniques are based on assumptions that are not supported by observable market prices or rates. The valuation requires the directors to determine comparable public companies (peers) based on industry, size, leverage and strategy, and to calculate an appropriate price multiple, such as enterprise value to revenue ("EV/Revenue") multiple, for each comparable company identified. The multiple is calculated by dividing the enterprise value of the comparable company by an earnings measure. The trading multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on company-specific facts and circumstances. The discounted multiple is applied to the corresponding earnings measure of the unlisted equity investment to measure the fair value. The directors believe that the estimated fair value resulting from the valuation technique, which is recorded in the consolidated statement of financial position, and the related changes in fair value which are recorded in other comprehensive income, are reasonable, and that it was the most appropriate value at the end of the reporting period.

The fair values of financial assets at fair value through profit or loss have been estimated as follows: (i) for wealth management products, the fair values have been estimated by using discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks; (ii) for subscription options, the fair values have been estimated by using the Black Scholes Model. Valuations requires the directors to make estimates about the life of option, dividend yield and expected volatility; and (iii) for other financial assets at fair value through profit or loss, the fair values have been estimated by reference to market approach or discount cashflow approach, and using equity valuation allocation model. Valuations requires the directors to make estimates about the underlying equity value, expected volatility and risk-free rate. The estimation of the underlying equity value is based on estimation of price multiple or expected future cash flows. These valuation techniques are based on assumptions that are not supported by observable market prices or rates. The directors believe that the estimated fair values resulting from these valuation techniques, which are recorded in the consolidated statement of financial position, the related changes in fair values, and the consolidated statement of profit or loss, are reasonable, and that they were the most appropriate values at the end of the reporting period.

45. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise convertible bonds, cash and bank deposits and restricted cash. The main purpose of these financial instruments is to raise finance for the Group's operations and payment of dividends. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

It is, and has been throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

NOTES TO FINANCIAL STATEMENTS (continued)

45. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from revenue derived from overseas markets by operating units in currencies other than the units' functional currencies and monetary items denominated in currencies other than the functional currencies.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the US\$ and HK\$ exchange rates, with all other variables held constant, of the Group's profit before tax (arising from US\$ and HK\$ denominated financial instruments) for the year:

Credit risk

The Group trades only with recognised and creditworthy customers. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables are disclosed in note 26 to the financial statements.

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December. The amounts presented are gross carrying amounts for financial assets.

45. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2025 and 2024.

The Group monitors capital using the asset-liability ratio, which represents total liabilities divided by total assets.

	2025	2024
	RMB'000	RMB'000
Total liabilities	(6,906,551)	(9,872,073)

[#] These reserve accounts comprise other reserves of RMB6,220,888,000 (2024: RMB5,908,044,000) in the statement of financial position of the Company.

The Company operates two share option schemes and two share award schemes as part of the benefits to its employees during the year ended 31 December 2025. The share-based compensation reserve comprises the fair value of share options and awarded shares granted which are yet to be exercised or vested, as further explained in the accounting policy for share-based payment transactions in note 2.4 to the financial statements. The amount will be transferred to the share premium account and treasury shares when the related share options are exercised or the related awarded shares are vested.

48. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors on 25 March 2026.
